The NDIA Research and Evaluation Branch is hosting a series of informative webinars on its research.

The webinar series aims to provide information and updates about research outputs to participants, providers, researchers, NDIA staff and members of the disability community.

Employment

This webinar focused on our research about supports that help people with disability to find and keep a job.

Click on the links below to watch the 3-part webinar recording:

1. Pathways to employment
2. Employment outcomes for NDIS participants
3. Participants in mainstream employment: the role of the NDIS

Read responses to questions asked during the session:

- Participants in employment webinar: questions and answers (DOCX 297KB)
- Participants in employment webinar: questions and answers (PDF 230KB)

Social, civic and community participation

This webinar focused on our research on social, civic and community participation.

We also presented our new information resources to help participants to understand the supports available to them in reaching their community participation goals.

Click on the links below to watch the 3-part webinar recording:

1. Umbrella review: Social civic and community participation
2. Mixed methods research: Social civic and community participation
3. Guides for Understanding Supports (GUS): Social civic and community participation
