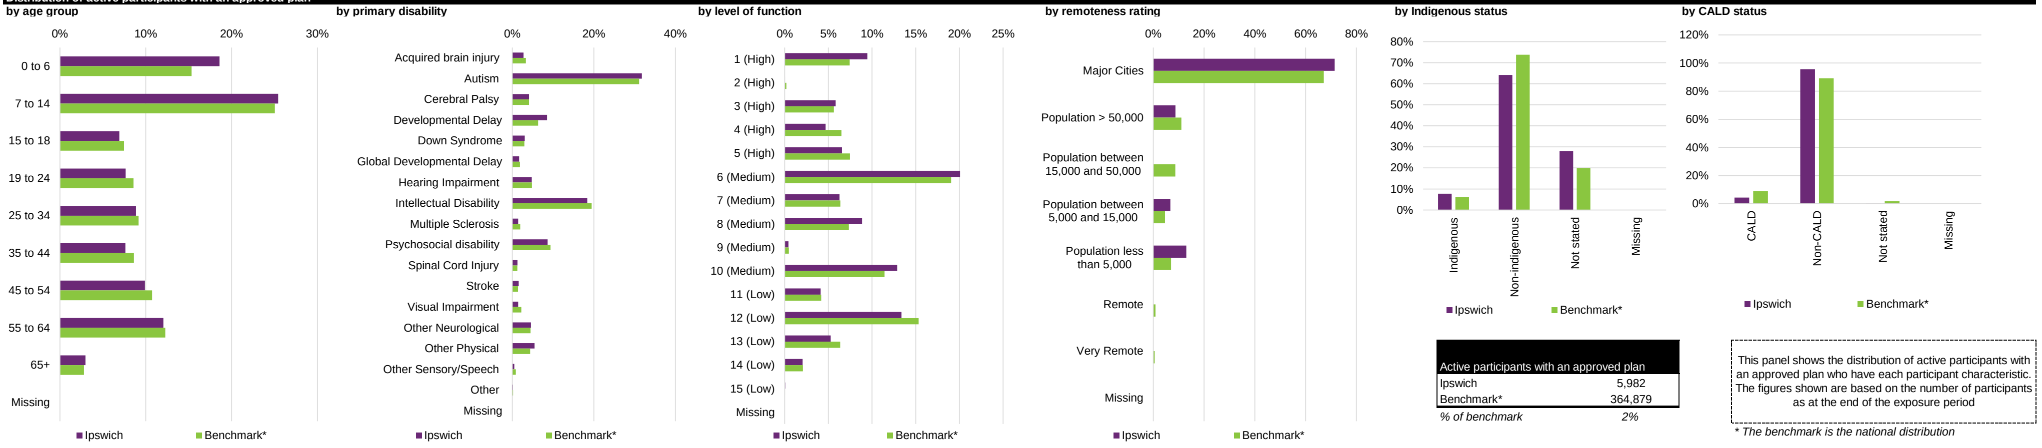
Participant Category Detailed Dashboard as at 30 June 2020 (exposure period: 1 October 2019 to 31 March 2020)

District: Ipswich (phase in date: 1 July 2017) | Support Category: All | All Participants

Participant profile

Distribution of active participants with an approved plan



Active participants with an approved plan	
Ipswich	5,982
Benchmark*	364,879
% of benchmark	*2%*

This panel shows the distribution of active participants with an approved plan who have each participant characteristic. The figures shown are based on the number of participants as at the end of the exposure period

** The benchmark is the national distribution*

Service provider indicators

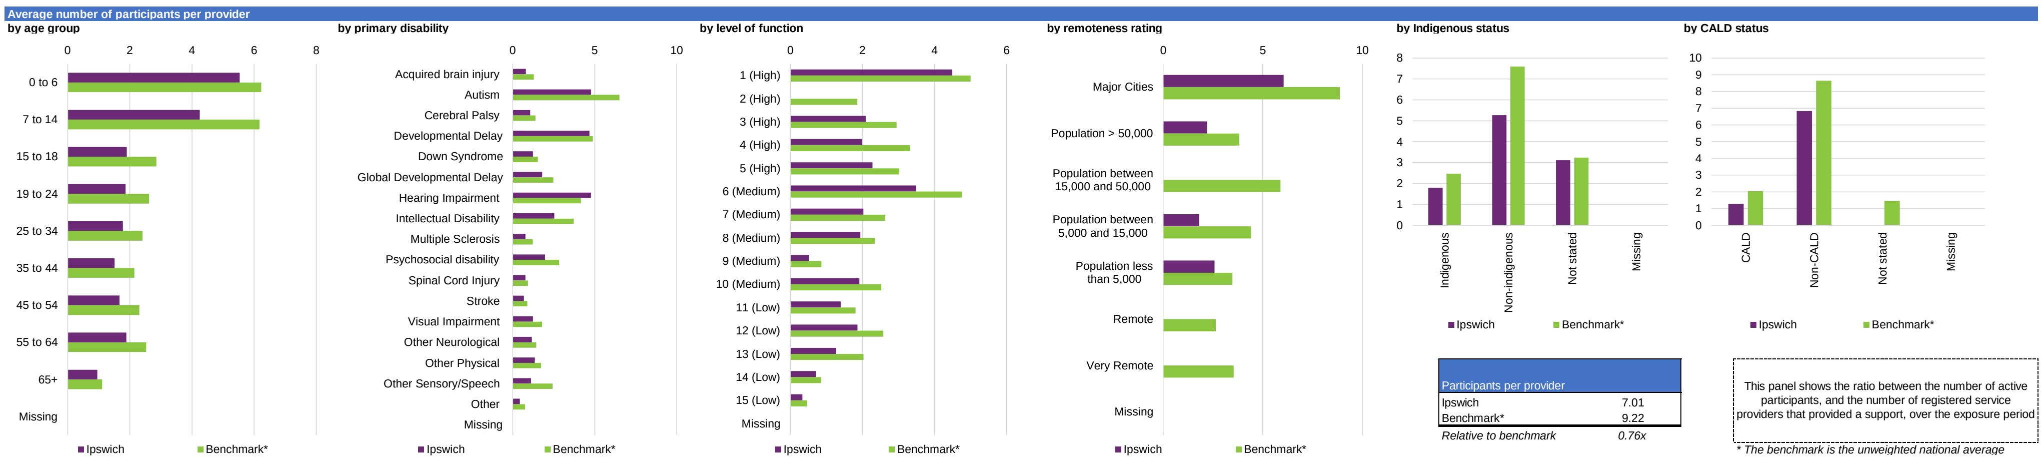
Number of registered and active providers that provided supports in a category

Registered active service providers	
Ipswich	853
Benchmark*	10,740
% of benchmark	*8%*

This panel shows the number of registered service providers that have provided a support to a participant with each participant characteristic, over the exposure period

** The benchmark is the national number*

Average number of participants per provider

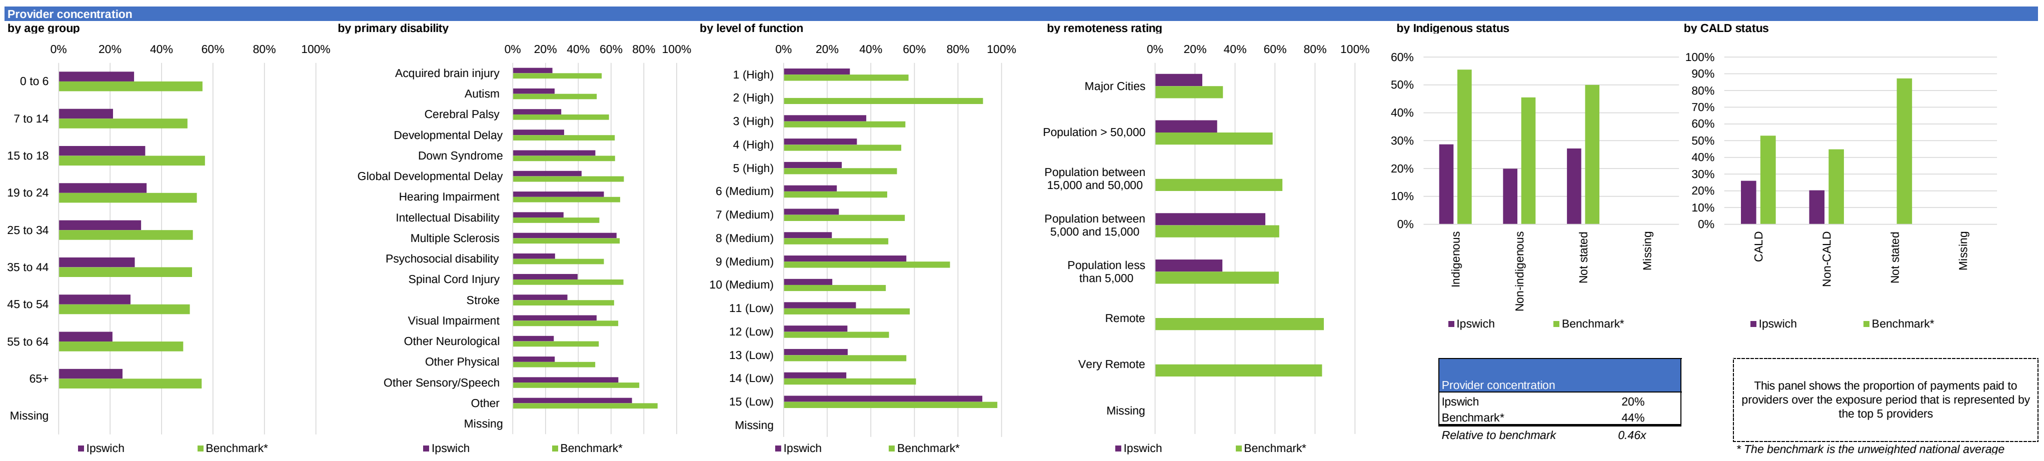


Participants per provider	
Ipswich	7.01
Benchmark*	9.22
Relative to benchmark	*0.76x*

This panel shows the ratio between the number of active participants, and the number of registered service providers that provided a support, over the exposure period

** The benchmark is the unweighted national average*

Provider concentration

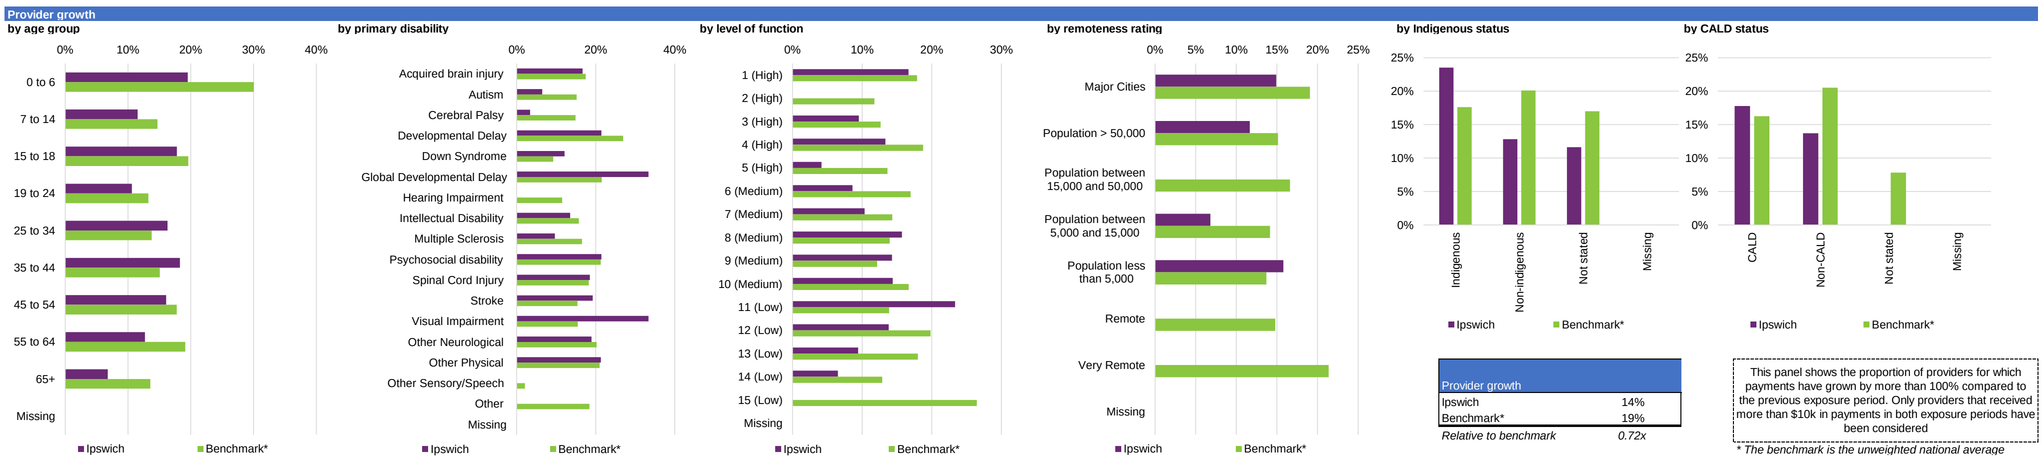


Provider concentration	
Ipswich	20%
Benchmark*	44%
Relative to benchmark	*0.46x*

This panel shows the proportion of payments paid to providers over the exposure period that is represented by the top 5 providers

** The benchmark is the unweighted national average*

Provider growth

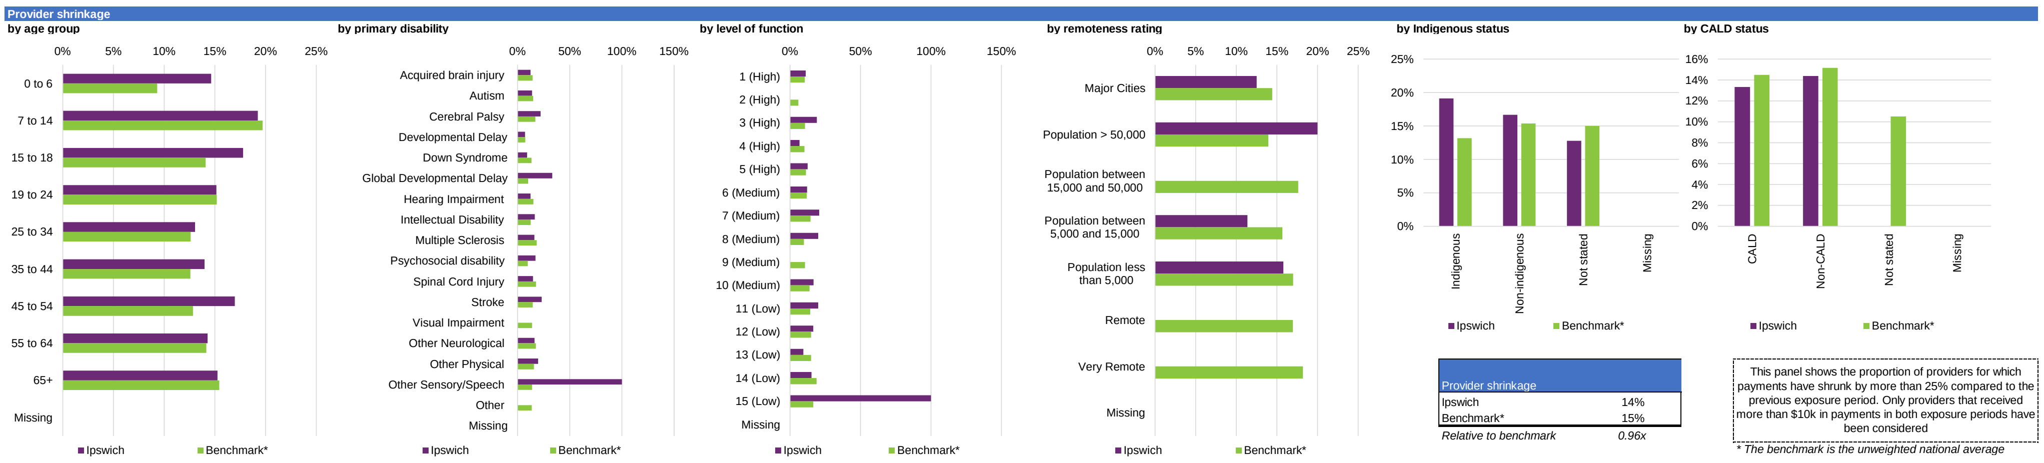


Provider growth	
Ipswich	14%
Benchmark*	19%
Relative to benchmark	*0.72x*

This panel shows the proportion of providers for which payments have grown by more than 100% compared to the previous exposure period. Only providers that received more than $10k in payments in both exposure periods have been considered

** The benchmark is the unweighted national average*

Provider shrinkage



Provider shrinkage	
Ipswich	14%
Benchmark*	15%
Relative to benchmark	*0.96x*

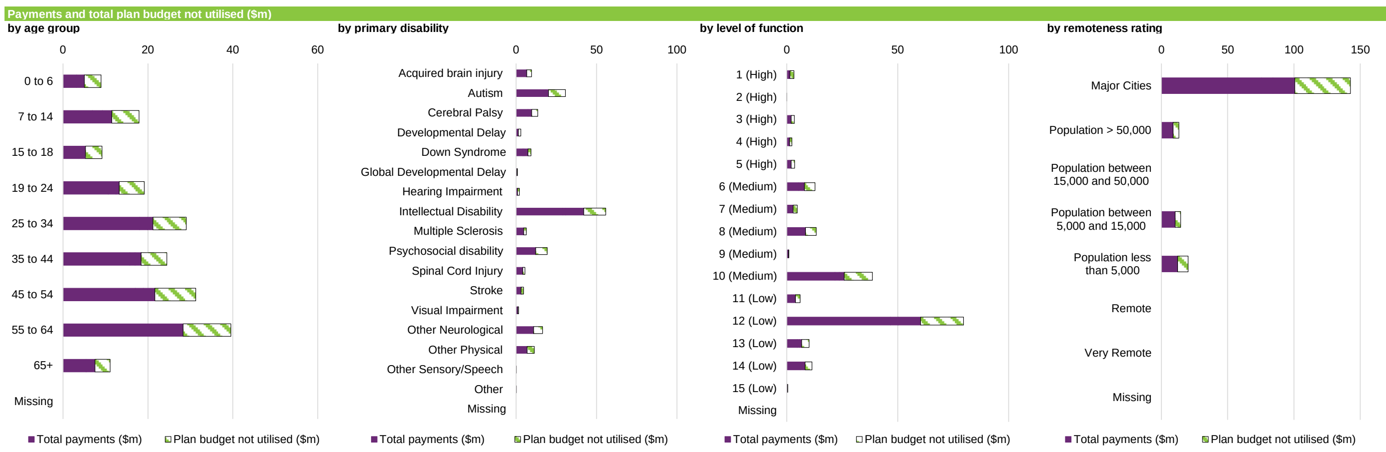
This panel shows the proportion of providers for which payments have shrunk by more than 25% compared to the previous exposure period. Only providers that received more than $10k in payments in both exposure periods have been considered

** The benchmark is the unweighted national average*

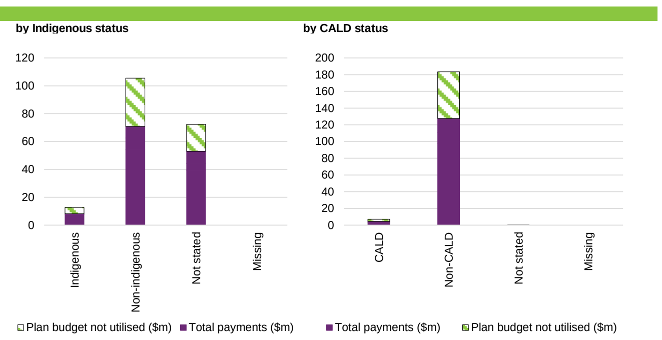
Plan utilisation

Payments and total plan budget not utilised ($m)

by age group | by primary disability | by level of function | by remoteness rating



by Indigenous status | by CALD status



Total plan budgets	
Ipswich	190.52
Benchmark*	11,978.68
% of benchmark	*2%*

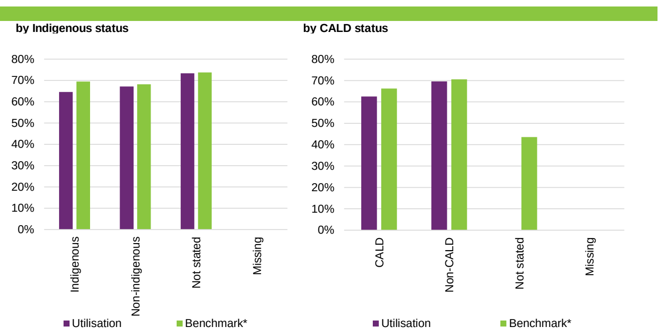
This panel shows the total value of payments over the exposure period, which includes payments to providers, participants and off-system (in-kind and YPIRAC). Total plan budgets for the exposure period that has not been utilised is also shown

** The benchmark is the national total*

Plan utilisation

by age group | by primary disability | by level of function | by remoteness rating

by Indigenous status | by CALD status



Plan utilisation	
Ipswich	69%
Benchmark*	70%
Relative to benchmark	*0.98x*

This panel shows plan utilisation over the exposure period, which includes payments to providers, participants and off-system (in-kind and YPIRAC)

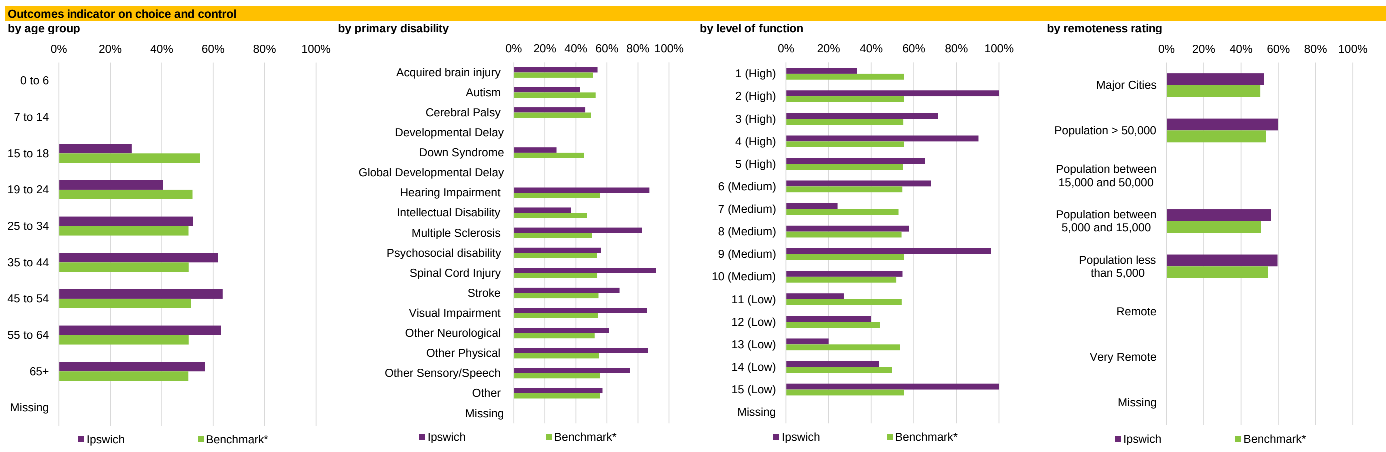
** The benchmark is the national average, adjusted for the mix of SIL / SDA participants and plan number*

Note: A utilisation rate may be above 100% due to the fungibility of core supports. This refers to the ability of participants to use their funding flexibly between different support types, albeit within certain limitations.

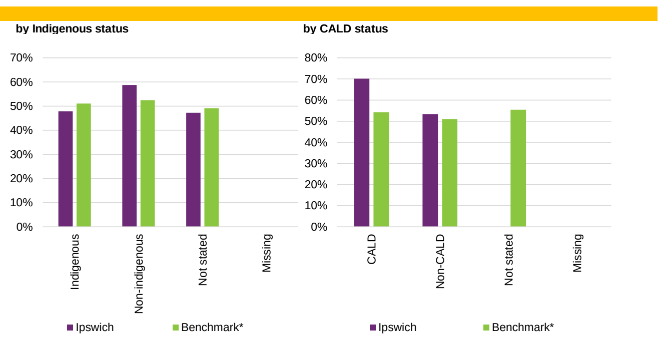
Outcomes framework

Outcomes indicator on choice and control

by age group | by primary disability | by level of function | by remoteness rating



by Indigenous status | by CALD status



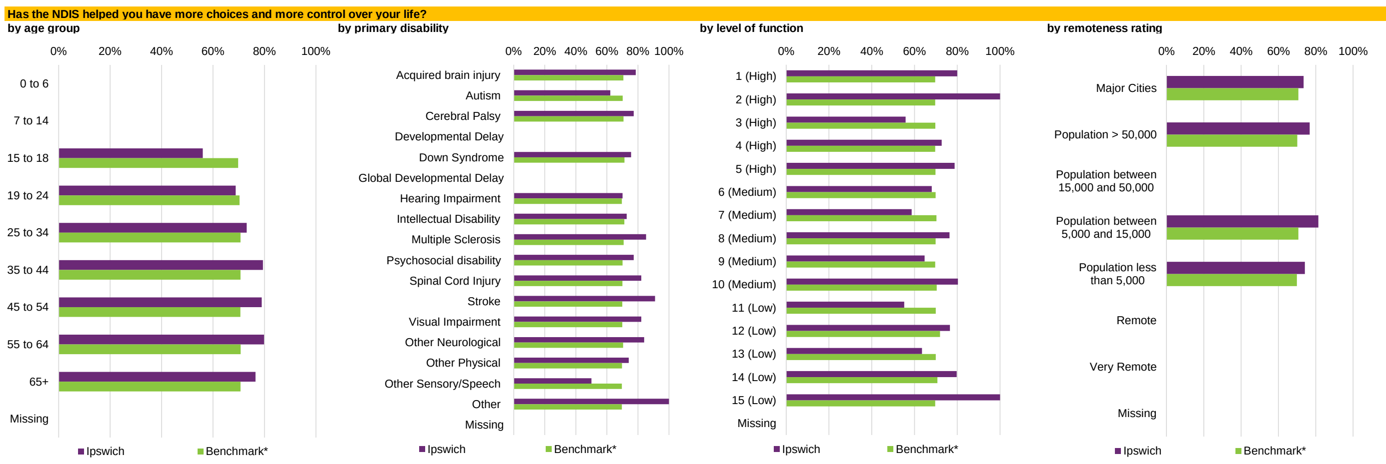
Proportion of participants who reported that they choose who supports them	
Ipswich	54%
Benchmark*	51%
Relative to benchmark	*1.06x*

This panel shows the proportion of participants who reported in their most recent outcomes survey that they choose who supports them

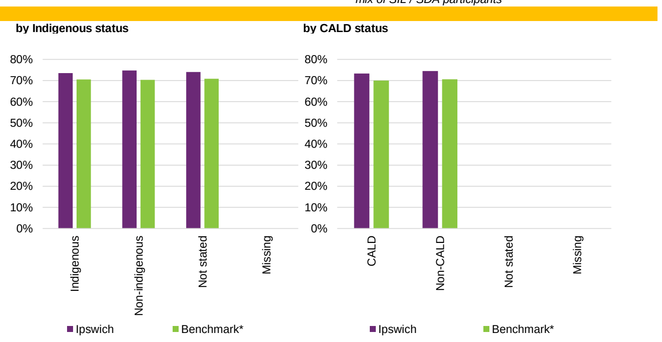
** The benchmark is the national average, adjusted for the mix of SIL / SDA participants*

Has the NDIS helped you have more choices and more control over your life?

by age group | by primary disability | by level of function | by remoteness rating



by Indigenous status | by CALD status



Proportion of participants who reported that the NDIS has helped with choice and control	
Ipswich	74%
Benchmark*	71%
Relative to benchmark	*1.05x*

This panel shows the proportion of participants who reported in their most recent outcomes survey that the NDIS has helped with choice and control

** The benchmark is the national average, adjusted for the mix of SIL / SDA participants*

Indicator definitions

Active participants with approved plans	Number of active participants who have an approved plan and reside in the district / have supports relating to the support category in their plan
Registered active providers	Number of registered service providers that have provided a support to a participant within the district / support category, over the exposure period
Participants per provider	Ratio between the number of active participants and the number of registered service providers
Provider concentration	Proportion of provider payments over the exposure period that were paid to the top 10 providers
Provider growth	Proportion of providers for which payments have grown by more than 100% compared to the previous exposure period. Only providers that received more than $10k in payments in both exposure periods have been considered
Provider shrinkage	Proportion of providers for which payments have shrunk by more than 25% compared to the previous exposure period. Only providers that received more than $10k in payments in both exposure periods have been considered
Total plan budgets	Value of supports committed in participant plans for the exposure period
Payments	Value of all payments over the exposure period, including payments to providers, payments to participants, and off-system payments (in-kind and Younger People In Residential Aged Care (YPIRAC))
Utilisation	Ratio between payments and total plan budgets
Outcomes indicator on choice and control	Proportion of participants who reported in their most recent outcomes survey that they choose who supports them
Has NDIS helped with choice and control?	Proportion of participants who reported in their most recent outcomes survey that the NDIS has helped with choice and control
(green dot)	The green dots indicate the top 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively well under the metric under consideration
(red dot)	The red dots indicate the bottom 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively poorly under the metric under consideration

Note: For some metrics – 'good' performance is considered a higher score under the metric. For example, high utilisation rates are considered a sign of a functioning market where participants have access to the supports they need.
For other metrics, a 'good' performance is considered a lower score under the metric. For example, a low provider concentration is considered a sign of a competitive market.
