

### Insights

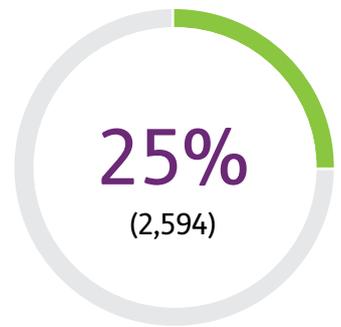

As at 30 June 2023:

of the **610,502** active participants in the NDIS have a **primary disability of cerebral palsy**.

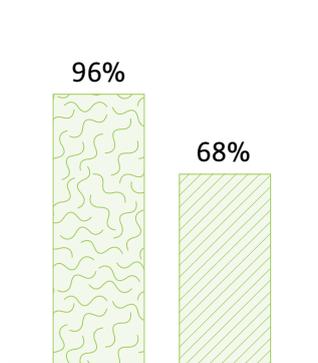

of participants with cerebral palsy **are aged over 18 years**.

of participants with cerebral palsy aged over 18 years are in **Supported Independent Living**.

In the year ending 30 June 2023:

**96%**

of applicants with cerebral palsy **aged 18 years and under** were eligible to join the Scheme, compared to **68%** for those aged over 18 years.

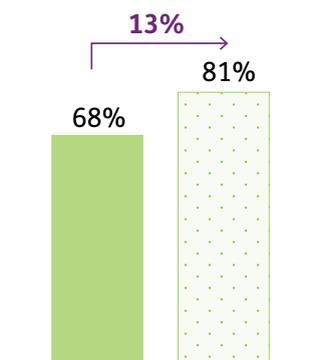

**\$2.48 billion**

of paid supports were provided to participants with cerebral palsy, compared to **\$2.12bn** in the previous year, an increase of **17%**.

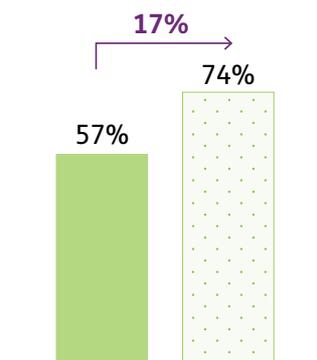

**\$142,000**

was the average payment for a participant with cerebral palsy, an increase of **13%** compared to the previous year.

**81%**

of participants aged 15 and over with cerebral palsy indicated the NDIS had helped them have more choice and control, which is an increase of 13 percentage points compared to baseline of 68%.<sup>5</sup>

**74%**

of parents and carers for children with cerebral palsy felt their child had become more independent, an increase of 17 percentage points compared to baseline of 57%.<sup>5</sup>

**65%**

was the weighted average satisfaction rate for participants with cerebral palsy over the 4 stages of the pathway.

‘My support workers are great and are more like friends to me.’

NDIS participant, Cooper

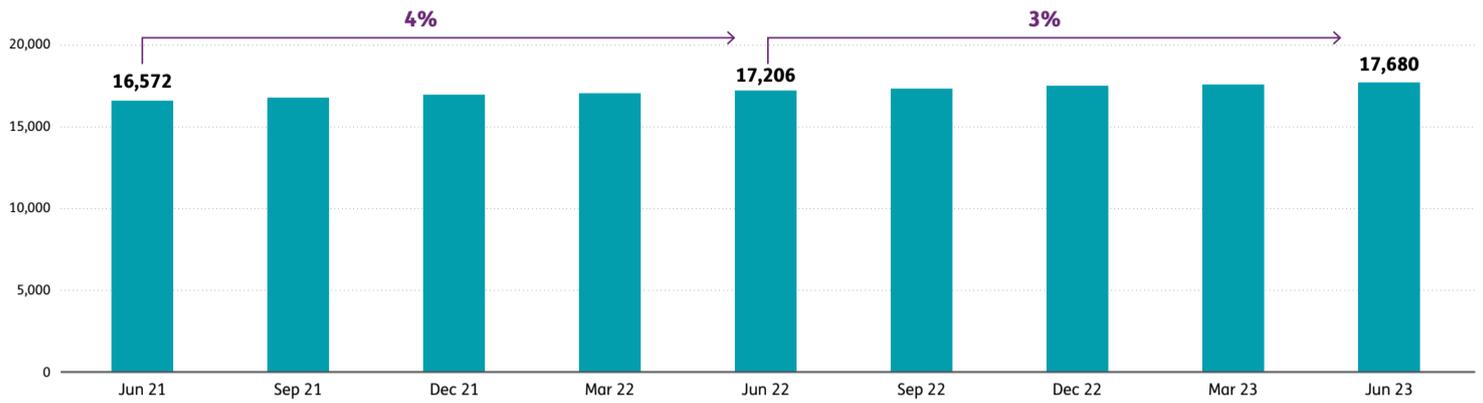

# Section 1: Participants

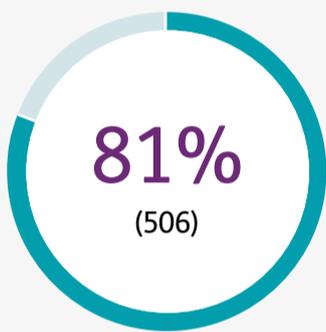

## Active participant trend

The number of participants with cerebral palsy has increased by **4%** and **3%** in the last two years.

## Access

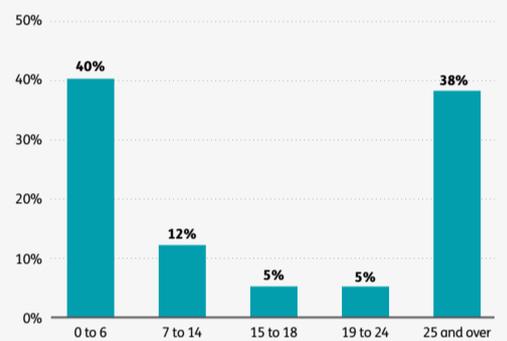

In the year ending 30 June 2023:

of access decisions for applicants with cerebral palsy resulted in the applicant joining the Scheme, compared to 76% of access decisions for all applicants.

access decisions have been made for applicants with cerebral palsy (506 participants met access and are still active).

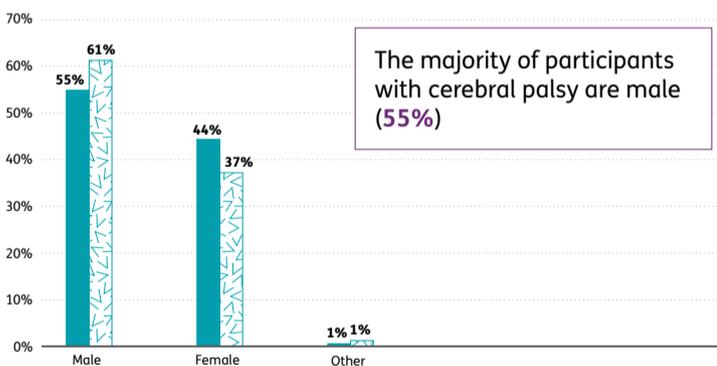

Of the 506 participants with cerebral palsy who joined the Scheme in the year ending 30 June 2023, 290 (57%) were aged 18 years and under.

■ Cerebral Palsy    ▨ All participants

## Gender

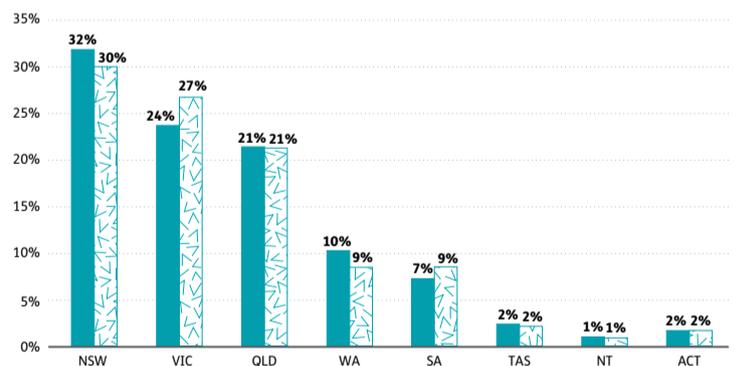

Distribution of active participants by gender

The majority of participants with cerebral palsy are male (55%)

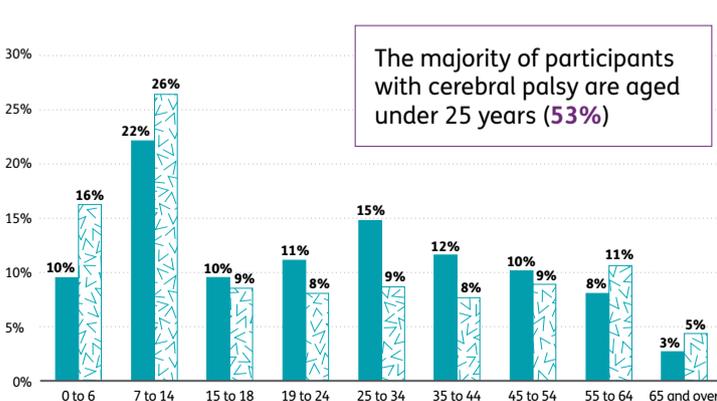

## State/Territory

Distribution of active participants by State/Territory

## Age band

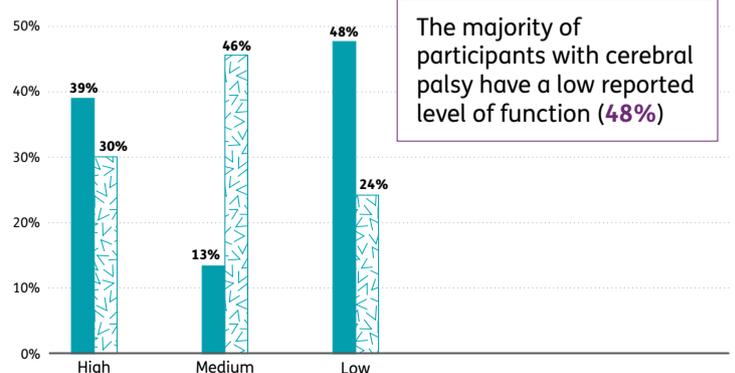

Distribution of active participants by age band

The majority of participants with cerebral palsy are aged under 25 years (53%)

## Reported level of function

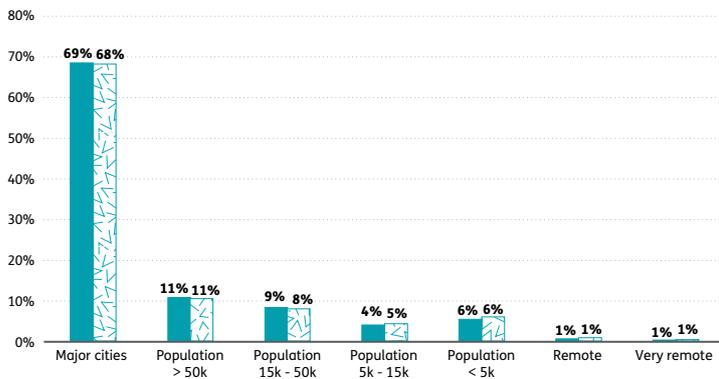

Distribution of active participants by reported level of function

The majority of participants with cerebral palsy have a low reported level of function (48%)

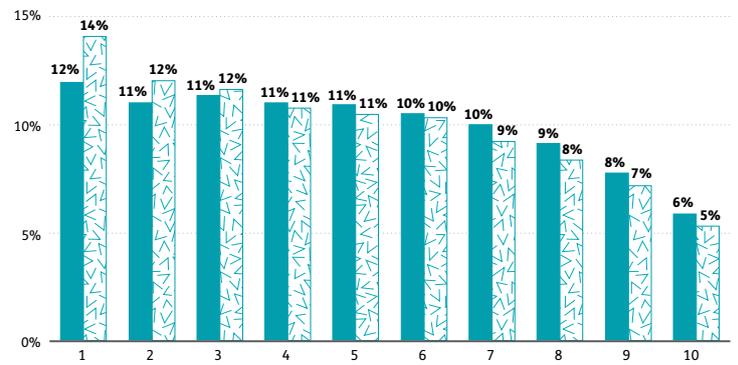

## Remoteness

### Distribution of active participants by remoteness

## SEIFA score (using Index of Education and Occupation)

### Distribution of active participants by SEIFA score<sup>1</sup>

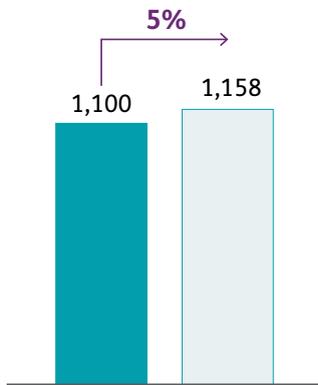

There is a greater proportion of participants with cerebral palsy who reside in areas with a lower socioeconomic score

‘I think people can see past the disability, it’s not a big deal. They just have fun and enjoy my music.’

NDIS participant, Cooper

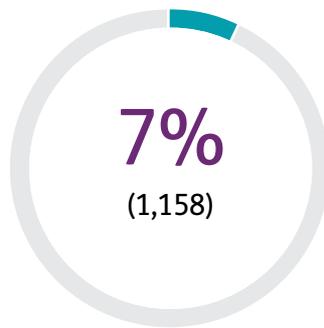

## First Nations

### In the year ending 30 June 2023:

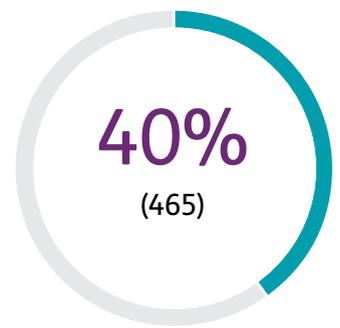

The number of participants with cerebral palsy who identify as First Nations people has increased from 1,100 to 1,158, an increase of 5%.

### At 30 June 2023:

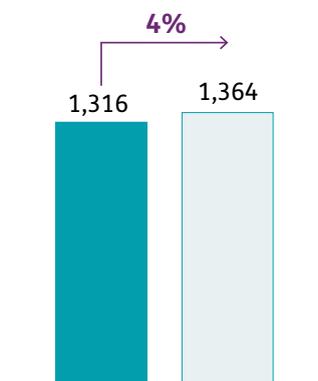

of participants with cerebral palsy identified themselves as First Nations people, compared to 8% (46,694) for all participants.

of participants with cerebral palsy who identify as First Nations people live in a major city, compared to 68% (417,206) for all participants.

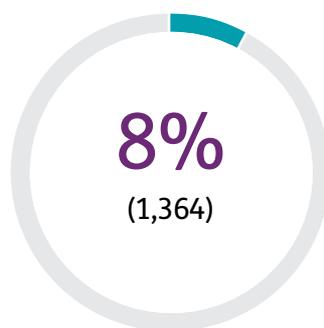

## Culturally and Linguistically Diverse (CALD)

### In the year ending 30 June 2023:

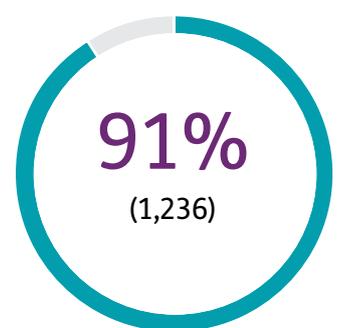

The number of participants with cerebral palsy who identify as CALD has increased from 1,316 to 1,364, an increase of 4%.

### At 30 June 2023:

of participants with cerebral palsy identified as CALD, compared to 9% (55,751) for all participants.

of participants with cerebral palsy who identify as CALD live in a major city, compared to 68% (417,206) for all participants.

## Section 2: Payments

### Total payments

In the year ending 30 June 2023:

the NDIS provided

**\$2.48 billion**

of paid supports to participants with cerebral palsy.

In the previous year:

the NDIS provided

**\$2.12 billion**

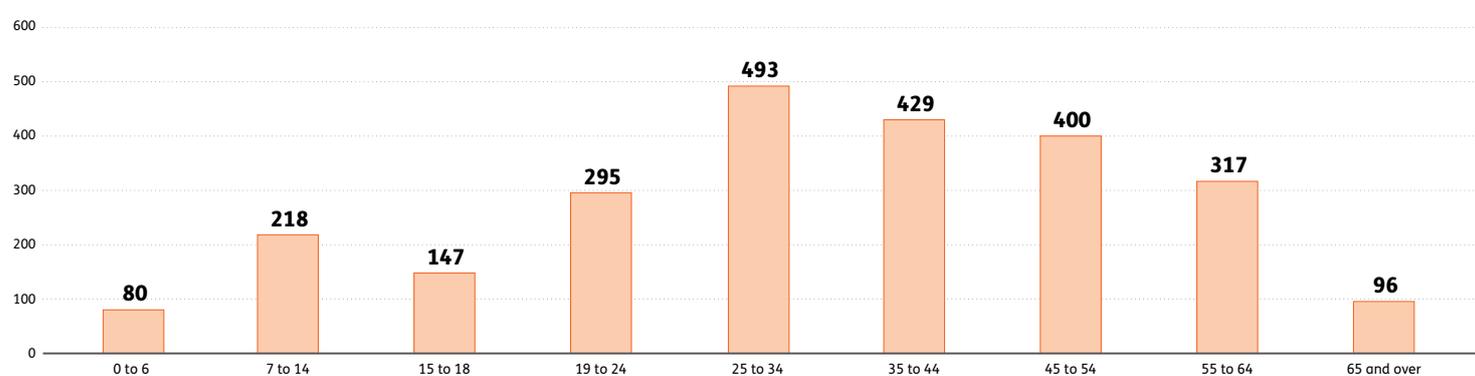

of paid supports to participants with cerebral palsy.

#### Total payments by support category (\$m)<sup>2</sup>

Support Category	Year ending 30 June 2023	Year ending 30 June 2022	% increase
Core – daily activities	1,510.9	1,321.6	14%
Core – community	437.4	326.7	34%
Core – consumables & transport	105.1	95.1	10%
Capacity building – daily activities	202.2	178.4	13%
Capacity building – other	71.7	64.2	12%
Capital	147.3	129.5	14%
<b>Total</b>	<b>2,474.6</b>	<b>2,115.6</b>	<b>17%</b>

#### Total payments by age band for the year ending 30 June 2023 (\$m)

### Average payments

The average payment<sup>3</sup> per participant with cerebral palsy was

**\$142,000**

for the year ending 30 June 2023.

The average payment per participant with cerebral palsy was

**\$125,300**

for the year ending 30 June 2022.

↑ 13%

#### Comparing average payments<sup>3</sup> for the same group of participants with cerebral palsy between this year and last year<sup>4</sup>:

	Year ending 30 June 2023	Year ending 30 June 2022	% increase
Aged under 18 years	\$61,800	\$54,800	13%
Aged 18 years and over not in SIL	\$127,300	\$112,800	13%
Aged 18 years and over in SIL	\$423,700	\$379,400	12%
<b>All</b>	<b>\$143,700</b>	<b>\$125,300</b>	<b>15%</b>

### Participants in Supported Independent Living (SIL)

#### Total payments by support category for the year ending 30 June 2023 (\$m)

Support Category	Participants in SIL	Participants not in SIL	Total
Core – daily activities	796.6	714.3	1,510.9
Core – community	155.6	281.9	437.4
Core – consumables & transport	22.5	82.6	105.1
Capacity building – daily activities	33.2	169.0	202.2
Capacity building – other	23.8	47.9	71.7
Capital	46.9	100.4	147.3
<b>Total</b>	<b>1,078.6</b>	<b>1,396.1</b>	<b>2,474.6</b>

#### For participants aged 18 years and over with cerebral palsy

In the year ending 30 June 2023:

**25%**

were participants in SIL.

**53%**

of payments were to participants in SIL.

A year ago:

**24%**

were participants in SIL.

**52%**

of payments were to participants in SIL.

## Section 3: Participant outcomes and satisfaction

### Outcomes

The outcome results at 30 June 2023 compare baseline results to the latest results for participants with cerebral palsy who have been in the Scheme for at least two years.<sup>5</sup>

#### Social and community participation

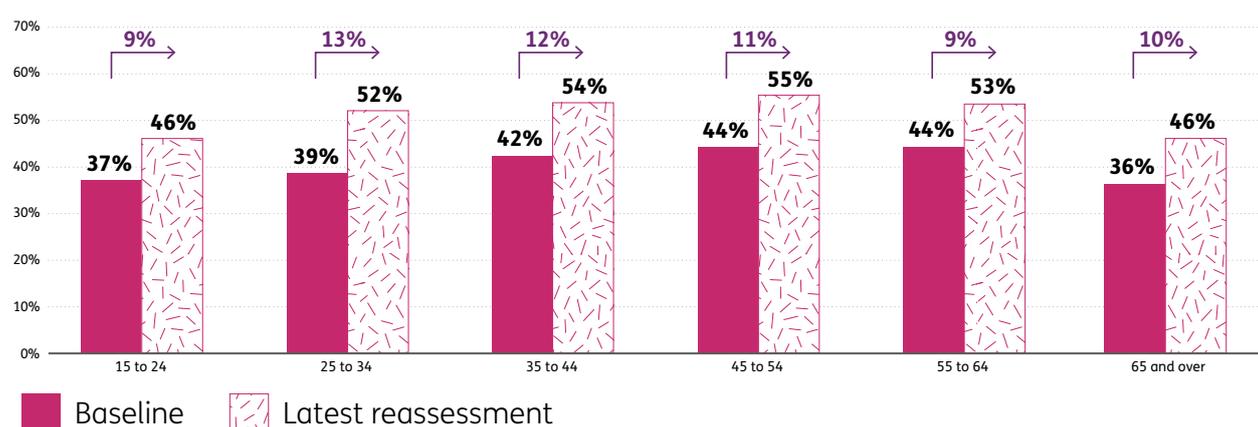

For participants aged 15 years and over with cerebral palsy, **51%** said at their latest reassessment that they were actively involved in a community, cultural or religious group in the last 12 months. This compares to **42%** for the Scheme as a whole.

Comparing responses at the most recent plan reassessment (between two to seven years after entry) with responses at Scheme entry (or baseline), there has been a:

- **11 percentage point increase** from **40%** to **51%** for participants aged 15 years and over
- **12 percentage point increase** from **41%** to **53%** for participants aged 25 years and over.

The chart below shows outcomes for different age groups.

#### Participant employment

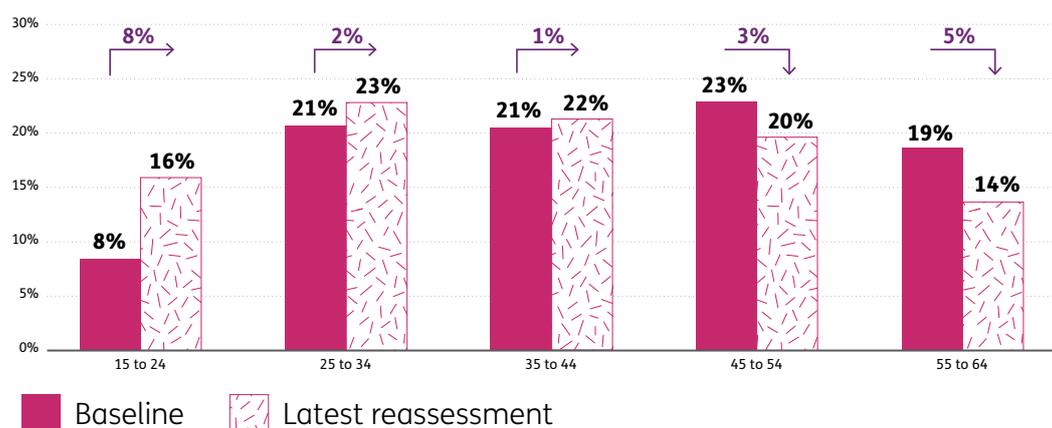

For participants aged 15 to 64 years with cerebral palsy, **19%** reported that they had a paid job at their latest reassessment. This compares to **23%** for the Scheme as a whole.

Comparing responses at the most recent plan reassessment (between two to seven years after entry) with responses at Scheme entry, there has been a:

- **2 percentage point increase** from **18%** to **19%** for participants aged 15–64 years
- **1 percentage point decrease** from **21%** to **20%** for participants aged 25–64 years.

The chart below shows outcomes for different age groups.

#### Family and carer employment

Family/carers of participants with cerebral palsy reported an employment rate of **49%**, which is **lower** than the Scheme average family/carers employment rate of **50%**.

Comparing responses at the most recent plan reassessment (between two to seven years after entry) with responses at Scheme entry, there has been a:

- **7 percentage point increase** from **44%** to **50%** for participants aged 0–14 years
- **2 percentage point increase** from **44%** to **46%** for participants aged 15 years and over
- **5 percentage point increase** from **44%** to **49%** for participants across all ages.

## Choice and control

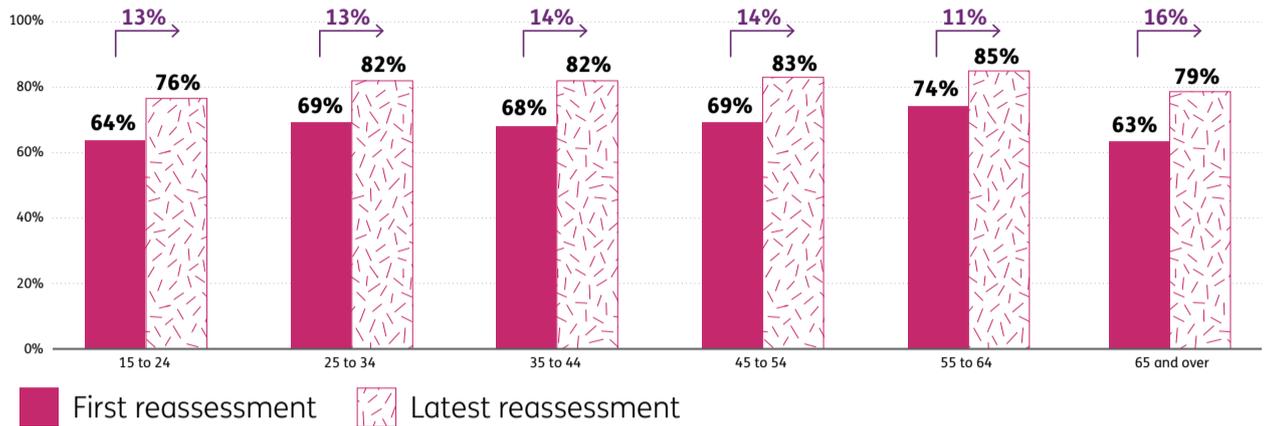

At 30 June 2023, **81%** of participants aged 15 years and over with cerebral palsy said the NDIS has helped them have more choice and control over their life. This is **higher** than the Scheme average rate at **77%**.

Comparing responses at the most recent plan reassessment (between two to seven years after entry) with responses at their first plan reassessment, there has been a:

- **13 percentage point increase** from **68%** to **81%** for participants aged 15 years and over
- **13 percentage point increase** from **70%** to **83%** for participants aged 25 years and over.

The chart below shows outcomes for different age groups.

## For children aged 0 to before starting school

- **96%** of parents and carers for children with cerebral palsy thought the NDIS improved their child's development at their most recent plan reassessment, compared to **91%** at their first reassessment. This is a **5 percentage point increase** from the first reassessment.
- **97%** of parents and carers for children with cerebral palsy thought the NDIS improved their child's access to specialist services at their latest plan reassessment, compared to **91%** at their first reassessment. This is a **6 percentage point increase** from the first reassessment.

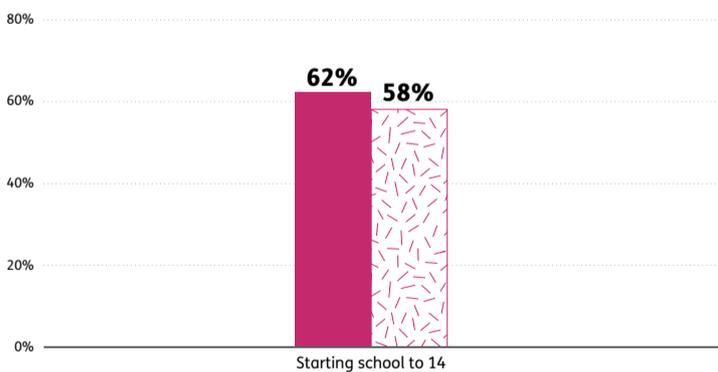

## For children starting school to 14 years

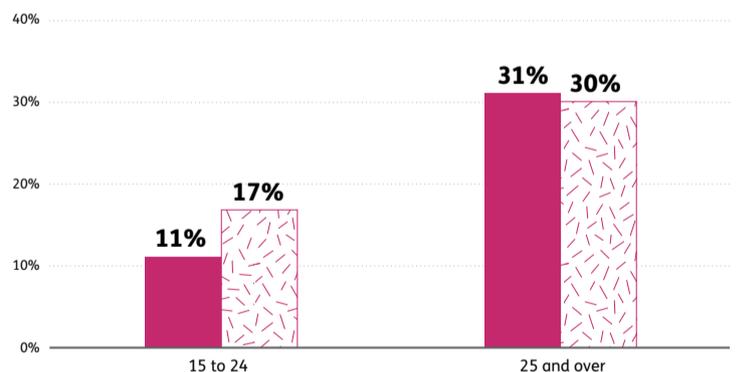

- **74%** of parents and carers for children with cerebral palsy felt their child had become more independent as a result of the NDIS at their most recent plan reassessment, compared to **57%** at their first reassessment. This is a **17 percentage point increase** from the first reassessment.
- **59%** of parents and carers for children with cerebral palsy felt the NDIS has improved their child's relationship with family and friends at their most recent plan reassessment, compared with **45%** at their first reassessment. This is a **13 percentage point increase** from the first reassessment.

## Education outcomes

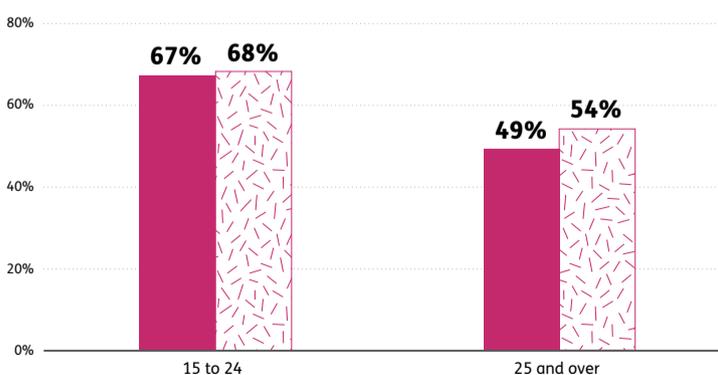

### % of children attending school in a mainstream class

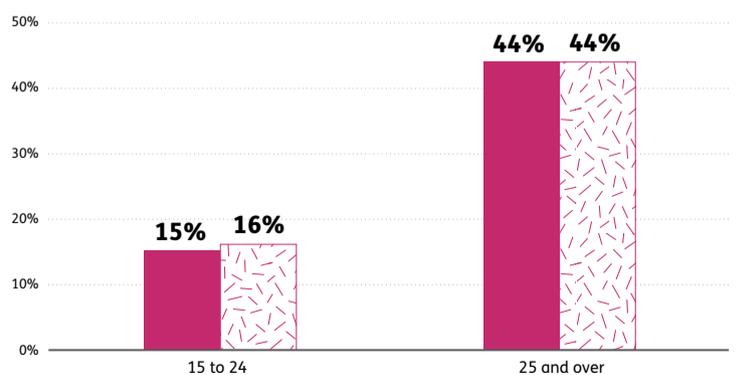

### % who have a post-school qualification

### % who get opportunities to learn new things

### % who are working in an Australian Disability Enterprise (of those participants who are working in a paid job)

■ Baseline    ▨ Latest reassessment

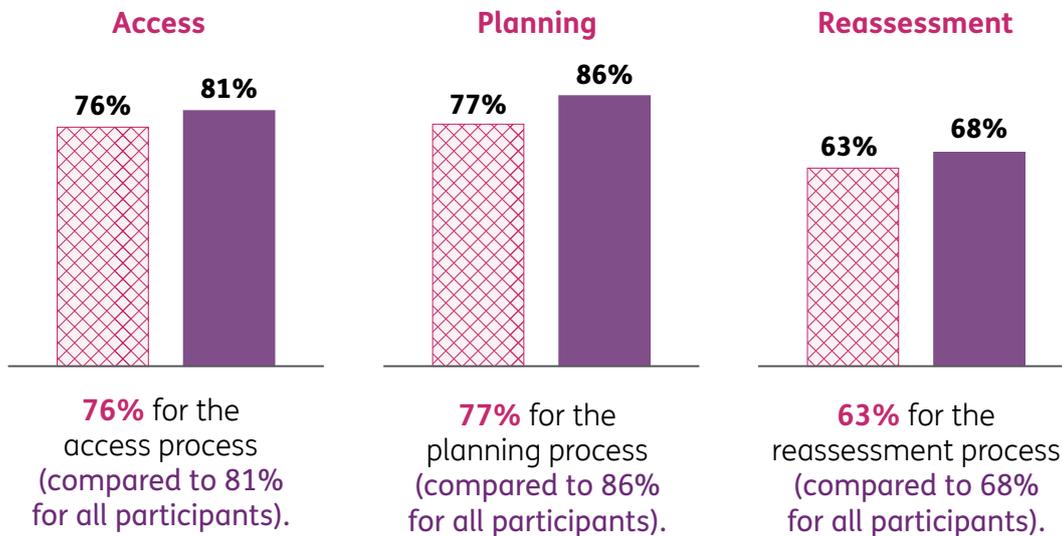

‘I have support workers who help me go to the gym and boxing, which helps me to keep fit for my DJ work.’

NDIS participant, Cooper

## Satisfaction

In the year ending 30 June 2023:

the percentage of participants with cerebral palsy who rated their experience with the NDIS<sup>6</sup> as **good or very good** was:

Satisfaction results for pre-planning are not shown due to the small sample size of responses collected from participants with cerebral palsy.

The weighted average satisfaction result for participants with cerebral palsy who rated their experience as **good or very good** over the 4 stages of the pathway was **65%**.

- This rate was **68%** in the previous year.
- This compares to a satisfaction rate of **75%** for all participants.

## Complaints

There were **1,699** complaints raised by participants with cerebral palsy in the year ending 30 June 2023 (a complaint rate of **10%**<sup>7</sup>):

- The complaint rate 12 months ago for participants with cerebral palsy was **10%**, **the same as** the current year.
- This compares to a complaint rate of **6%** for all participants.

## Section 4: Providers

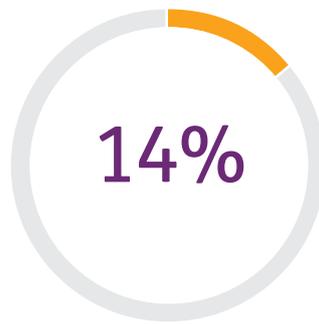

In the year ending 30 June 2023:

For providers supporting participants with cerebral palsy:

providers received a payment<sup>8</sup>.

of payments were received by the top 10 providers.

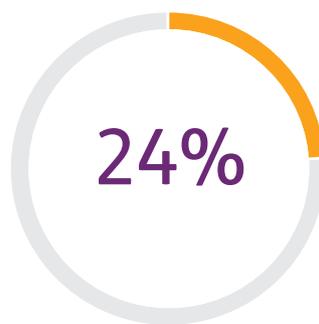

of these providers were companies or organisations and **49%** were individuals or sole traders.

For providers supporting participants with cerebral palsy who **used a plan manager**:

providers received a payment<sup>9</sup>.

of providers were registered and **76%** were unregistered<sup>10</sup>.

was paid in the year ending 30 June 2023 (**44%** of payments to participants with cerebral palsy).

For providers supporting **agency-managed** participants with cerebral palsy:

providers received a payment.

of providers were registered.

was paid in the year ending 30 June 2023 (**42%** of payments to participants with cerebral palsy).

For providers supporting **self-managed** participants with cerebral palsy, **\$339m** was paid in the year ending 30 June 2023 (which is **14%** of all payments to participants with cerebral palsy). At this time, for self-managed payments, the total number of providers and the registration status of providers is unable to be determined since it is not a requirement for self-managed participants to provide the ABN at the time of payment.

## Key definitions

Definitions of terms used in this dashboard are consistent with those in Appendix A of the Quarterly Report to disability ministers published on the NDIS website.

### SEIFA

1. The Australian Bureau of Statistics SEIFA Index of Education and Occupation (IEO) is used by NDIA to classify participants into socio-economic deciles, with decile one representing participants in the lowest socio-economic decile, and decile ten representing participants in the highest socio-economic decile. SEIFA deciles are allocated based on the Statistical Area 1 (SA1) that a participant lives in.

### Payments

2. The sum of the payments by support category may not equal the total payments shown in the table since the total may include payments with a “missing” support category. Daily activity supports include therapies.
3. Average payments per participant are calculated using a 12 month period prior to the reporting date.
4. The average payment for the same group of participants is compared across two different time periods (12 months ending 30 June 2023 vs 12 months ending 30 June 2022). Payments for participants who had an initial plan approved after 30 June 2022 are not included.

### Outcomes

5. The Participant Outcome section compares baseline results when participants entered the Scheme or at their first plan reassessment, with results measured at the most recent participant plan reassessment for each respondent. Results are for participants who have been in the Scheme for at least two years and NDIS trial participants are excluded. All outcome results are rounded to the nearest percentage but the percentage point increases or decreases are calculated based on the unrounded results.

### Satisfaction

6. The NDIA gathers responses at the four primary stages of the participant pathway – access, pre-planning, planning and plan reassessment.

### Complaints

7. The complaint rate is calculated as the number of complaints in the year divided by the active participant exposure in the year.

### Providers

8. The count of providers is by ABN and includes registered and unregistered providers supporting agency-managed participants and participants who use a plan manager. Note that for self-managed payments, the total number of providers is unable to be determined since it is not a requirement for self-managed participants to provide the ABN at the time of payment.
9. For each plan management type, a single provider is counted if they received a payment in the year for that plan management type. Note that a single provider can receive payments across more than one plan management type so may be included in more than one count.
10. A registered provider is an approved person or provider of supports who is registered with the NDIS Quality and Safeguard Commission. While a registered provider can provide supports to all participants, an unregistered provider can only provide supports to participants who use a plan manager or who are self-managed.
