

## Supplement E:

### National

---

Adapting to the new computer system and processes has impacted some data detailed in this supplement. This includes the proportion of active participant plans with a not-stated First Nations status; not-stated culturally and linguistically diverse (CALD) status; 'other' gender; missing data about reported level of function, 'access met' and first planning decisions; and 'other disability' types. There may be some minor instances of information being restated in this report as data is further refined.

When interpreting the results detailed in this supplement, please also consider the following:

Percentage figures have been rounded and may not always total to one hundred per cent.

Totals include participants with missing characteristics, where applicable.

Throughout this supplement, results are not adjusted for underlying differences in population characteristics, and hence comparisons of the results for subsections of the population should be interpreted with caution.

"n/a" means that results cannot be measured.

There are five parts to this supplement.

# Part One: Participants and their plans

The number of participants residing in remote and very remote areas is based on the Modified Monash Model measure of remoteness (Tables E.10).

<sup>3</sup> The cumulative results are measured as the numbers of active participants in residential aged care at the end of each quarter. The incremental results are the change in cumulative number of active participants in residential aged care each quarter. Quarterly results are reported based on a rolling 3 year period.

<sup>4</sup> Other includes participants with housing support data that is unavailable.

<sup>5</sup> Residential aged care exits do not include participants who are deceased or have exited the Scheme.

<sup>6</sup> Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

<sup>7</sup> From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.

## Part Two: Participant and family/carers outcomes

Participant outcome results that were reported in previous QRDM supplements can now be found in the baseline outcomes and longitudinal outcomes datasets. These are available under “participant numbers and outcomes” on the “participant datasets” page of the NDIS website (<https://dataresearch.ndis.gov.au/datasets/participant-datasets>).

Baseline outcomes for participants and/or their families and carers were collected for 98% of participants who joined the Scheme from 1 July 2016. Baseline indicators are collected when a participant enters the Scheme, meaning the NDIS is yet to impact the outcome at this point. The results are based on responses provided to the outcomes framework questionnaires. For the June 2025 quarter, valid responses that were previously marked as missing are now included in the results.

Targets are not provided for ‘family and carer employment rate’ and ‘participant choice and control’, as the NDIA corporate plan no longer lists these as performance measures (Tables E.19 to E.23).

## Part Three: Participant experience

The tables in Part Three, summarise complaints submitted from the 1 July 2016 until the end of 2024-25 Q4. Table E.37 shows the number of complaints in 2024-25 Q4 compared with previous quarters by the source of complaint, by the complaint subject, and Participant Critical Incidents (PCIs) in 2024-25 Q4 compared with previous quarters. The list of complaint subjects reflects the combination of all options.

Tables E.41 to E.44 show the number of complaints by type as well as by source and subject of complaint based on records. These results include all complaints submitted from 1 July 2016 and complaints made during that quarter.

An improvement was seen in participants' experience (Tables E.35 and E.38) in the September 2024 quarter – the first time since late 2023 – indicating that the NDIA's improvement initiatives are reducing the volume of complaints.

Figures reported for participant critical incidents (PCIs) exclude counts of 'withdrawn' or 'miscategorised' PCIs (Tables E.36, E.37, E.39 and E.43).

<sup>9</sup> From the September 2024 quarter, the PSG timeframe (Service Agreement) to approve a plan for early childhood approach (ECA) participants after an access decision has been made was altered to 56 days (previously 90 days).

<sup>10</sup> ECA stands for early childhood approach.

<sup>11</sup> Note that plans are extended automatically if they have not been reassessed before expiry so participants have continuity of support.

<sup>12</sup> From the March 2024 quarter, performance is measured from available data on processes and dates. Milestones being built into the new computer system will improve the capture of performance data.

<sup>17</sup> Complaints made by or on behalf of Providers refer to those submitted by registered providers. Complaints made by or on behalf of unregistered providers are not included.

<sup>18</sup> Percent of all registration requests is calculated as the number of complaints made by registered providers divided by the number of registered providers. The number of registered providers used in the calculation considers the length of time since the providers have submitted a registration request for the Scheme.

<sup>19</sup> Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.

<sup>20</sup> It is possible to record multiple related parties as the source of a complaint. In some cases, different complainant types (participants, providers or other parties) are linked to a single complaint. As a result, the sum of participant complaints, provider complaints and other complaints is higher than the total number of complaints.

<sup>21</sup> Note that 65% of all complainants made only one complaint, 17% made two complaints, and 18% made three or more complaints.

<sup>26</sup> The Tribunal will affirm the decision under review if it finds that the NDIA has made the correct decision, or vary the decision under review if it finds the NDIA's decision should be altered in some way. The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.

<sup>27</sup> It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceeds the total in each period.

<sup>28</sup> Data is reported with one month lag; therefore results for last month of the current quarter are not included.

<sup>29</sup> Supports in dispute data is only available for 2022-23 Q3 onwards.

# Part Four: Providers and the growing market

Part Four has been updated to focus on active provider counts and payments made to these providers across varying registration status and funds management types.

‘Active providers’ refers to those who have received payment in the quarter for supporting NDIS participants (Table E.51). The count of active providers excludes providers with a missing Australian Business Number (ABN).

Plan management fees, which are payments from NDIA-managed funding, are reclassified as plan-managed funding payments for the purpose of counting providers. Therefore, the count of NDIA-managed providers excludes providers that only received plan management fees and no other NDIA-managed funding payments (Table E.52).

From 14 October 2024, it is mandatory for participants with self-managed funding payments to include the Australian Business Number (ABN) of the associated provider or provide a reason why it isn’t available. Prior to this date, providing the Australian Business Number (ABN) was voluntary; therefore, the count of providers for self-managed participants before this date should only be used as a reference (Table E.51).

Total active provider payments are on a cash and in-kind basis. In-kind payments are included in the total NDIA-managed payments to registered providers (Table E.52).

**Table E.51 Number of active providers in 2024-25 Q4 by registration status and funds management type – National <sup>30</sup>**

Funds management type	Registered	Unregistered	Total providers
NDIA-managed	9,751	0	9,751
Plan-managed	15,183	181,938	196,237
Self-managed	8,968	126,974	135,570
All funds management types	16,363	254,018	269,432

**Table E.52 Total active provider payments in 2024-25 Q4 by registration status and funds management type (\$m) – National <sup>31 32</sup>**

Funds management type	Registered	Unregistered	All registration statuses
NDIA-managed	3,305	0	3,305
Plan-managed	4,312	3,072	7,422
Self-managed	371	684	1,243
All funds management types	7,989	3,756	11,970

<sup>30</sup> Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.

<sup>31</sup> A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".

<sup>32</sup> Registration status is determined as at the posting date of payment.

## Part Five: Financial sustainability

Average annualised committed supports (Tables E.56 to E.60) are derived from the total annualised committed supports in the current plans of active participants as at 30 June 2025. Average payments (Tables E.58 to E.60) are calculated as the sum of the payments in the 12-month period to 30 June 2025, divided by the average number of participants who are active per working day in each month over the same period. They have been rounded to the nearest hundred dollars. Figures are not shown if there is insufficient data in the group.

Total annualised committed supports are those in the current plans of active participants as at 30 June 2025. ‘Total payments’ refers to those paid over the 12 months to 30 June 2025 (Tables E.61 to E.63).

<sup>41</sup> The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

## Supplement F: New South Wales

---

Adapting to the new computer system and processes has impacted some data detailed in this supplement. This includes the proportion of active participant plans with a not-stated First Nations status; not-stated culturally and linguistically diverse (CALD) status; 'other' gender; missing data about reported level of function, 'access met' and first planning decisions; and 'other disability' types. There may be some minor instances of information being restated in this report as data is further refined.

When interpreting the results detailed in this supplement, please also consider the following:

Percentage figures have been rounded and may not always total to one hundred per cent.

Totals include participants with missing characteristics, where applicable.

Throughout this supplement, results are not adjusted for underlying differences in population characteristics, and hence comparisons of the results for subsections of the population should be interpreted with caution.

"n/a" means that results cannot be measured.

There are five parts to this supplement.

# Part One: Participants and their plans

The number of participants residing in remote and very remote areas is based on the Modified Monash Model measure of remoteness (Tables F.9).

<sup>44</sup> The cumulative results are measured as the numbers of active participants in residential aged care at the end of each quarter. The incremental results are the change in cumulative number of active participants in residential aged care each quarter. Quarterly results are reported based on a rolling 3 year period.

<sup>45</sup> Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

<sup>46</sup> From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.

## Part Two: Participant and family/carers outcomes

Participant outcome results that were reported in previous QRDM supplements can now be found in the baseline outcomes and longitudinal outcomes datasets. These are available under “participant numbers and outcomes” on the “participant datasets” page of the NDIS website (<https://dataresearch.ndis.gov.au/datasets/participant-datasets>).

Baseline outcomes for participants and/or their families and carers were collected for 98% of participants who joined the Scheme from 1 July 2016. Baseline indicators are collected when a participant enters the Scheme, meaning the NDIS is yet to impact the outcome at this point. The results are based on responses provided to the outcomes framework questionnaires. For the June 2025 quarter, valid responses that were previously marked as missing are now included in the results.

Targets are not provided for ‘family and carer employment rate’ and ‘participant choice and control’, as the NDIA corporate plan no longer lists these as performance measures (Tables F.16 to F.20).

## Part Three: Participant experience

The tables in Part Three, summarise complaints submitted from the 1 July 2016 until the end of 2024-25 Q4. Table F.22 shows the number of complaints in 2024-25 Q4 compared with previous quarters by the source of complaint, by the complaint subject, and Participant Critical Incidents (PCIs) in 2024-25 Q4 compared with previous quarters. The list of complaint subjects reflects the combination of all options.

Table F.25 shows the number of complaints by type as well as by source and subject of complaint based on records. These results include all complaints submitted from 1 July 2016 and complaints made during that quarter.

An improvement was seen in participants' experience (Table F.23) in the September 2024 quarter – the first time since late 2023 – indicating that the NDIA's improvement initiatives are reducing the volume of complaints.

Figures reported for participant critical incidents (PCIs) exclude counts of 'withdrawn' or 'miscategorised' PCIs (Tables F.22 and F.24).

**Table F.21 Proportion of respondents who responded positively to questions about 'Early Supports' (n = 244 in Prior Quarters, n = n/a in 2024-25 Q4), 'Community Connections' (n = 2,042 in Prior Quarters, n = 191 in 2024-25 Q4), 'Apply for NDIS (overall)' (n = 1,914 in Prior Quarters, n = 293 in 2024-25 Q4), 'Plan Approval' (n = 4,349 in Prior Quarters, n = 801 in 2024-25 Q4), 'Plan Implementation' (n = 4,408 in Prior Quarters, n = 606 in 2024-25 Q4) and 'Plan Reassessment' (n = 10,734 in Prior Quarters, n = 2,358 in 2024-25 Q4) - New South Wales <sup>47 48</sup>**

<sup>49</sup> Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.

<sup>50</sup> Note that 58% of all complainants made only one complaint, 20% made two complaints, and 22% made three or more complaints.

<sup>51</sup> It is possible to record multiple related parties as the source of a complaint, and in some cases, both participants and providers or other parties are linked to a single complaint. Where both a participant and a provider are a related party to a single complaint, the case is counted under both categories.

<sup>52</sup> The Tribunal will affirm the decision under review if it finds that the NDIA has made the correct decision, or vary the decision under review if it finds the NDIA's decision should be altered in some way. The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.

<sup>53</sup> It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceeds the total in each period.

<sup>54</sup> Data is reported with one month lag; therefore results for last month of the current quarter are not included.

<sup>55</sup> Supports in dispute data is only available for 2022-23 Q3 onwards.

# Part Four: Providers and the growing market

Part Four has been updated to focus on active provider counts and payments made to these providers across varying registration status and funds management types.

‘Active providers’ refers to those who have received payment in the quarter for supporting NDIS participants (Table F.31). The count of active providers excludes providers with a missing Australian Business Number (ABN).

Plan management fees, which are payments from NDIA-managed funding, are reclassified as plan-managed funding payments for the purpose of counting providers. Therefore, the count of NDIA-managed providers excludes providers that only received plan management fees and no other NDIA-managed funding payments (Table F.32).

From 14 October 2024, it is mandatory for participants with self-managed funding payments to include the Australian Business Number (ABN) of the associated provider or provide a reason why it isn’t available. Prior to this date, providing the Australian Business Number (ABN) was voluntary; therefore, the count of providers for self-managed participants before this date should only be used as a reference (Table F.31).

Total active provider payments are on a cash and in-kind basis. In-kind payments are included in the total NDIA-managed payments to registered providers (Table F.32).

**Table F.31 Number of active providers in 2024-25 Q4 by registration status and funds management type - New South Wales <sup>56</sup>**

Funds management type	Registered	Unregistered	Total providers
NDIA-managed	4,393	0	4,393
Plan-managed	6,820	50,729	57,226
Self-managed	3,746	36,437	40,045
All funds management types	7,634	72,691	79,971

**Table F.32 Total active provider payments in 2024-25 Q4 by registration status and funds management type (\$m) - New South Wales <sup>57 58</sup>**

Funds management type	Registered	Unregistered	All registration statuses
NDIA-managed	1,240	0	1,240
Plan-managed	1,279	800	2,089
Self-managed	124	186	367
All funds management types	2,643	985	3,695

<sup>56</sup> Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.

<sup>57</sup> A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".

<sup>58</sup> Registration status is determined as at the posting date of payment.

## Part Five: Financial sustainability

Average annualised committed supports (Tables F.33 to F.37) are derived from the total annualised committed supports in the current plans of active participants as at 30 June 2025. Average payments (Tables F.35 to F.37) are calculated as the sum of the payments in the 12-month period to 30 June 2025, divided by the average number of participants who are active per working day in each month over the same period. They have been rounded to the nearest hundred dollars. Figures are not shown if there is insufficient data in the group.

Total annualised committed supports are those in the current plans of active participants as at 30 June 2025. ‘Total payments’ refers to those paid over the 12 months to 30 June 2025 (Tables F.38 to F.40).

Of which, \$38.9 million (37%) has been allocated for specialised disability accommodation (SDA) supports, and \$67.6 million (63%) has been allocated for non-SDA supports.

<sup>61</sup> The utilisation rate for 2024-25 will likely increase due to a lag between when support is provided and when it is paid for.

Total Inflation	11.2%	13.8%	9.6%	7.2%	9.6%	12.1%	11.4%	10.4%	9.5%

<sup>62</sup> The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

## Supplement G:

### Victoria

---

Adapting to the new computer system and processes has impacted some data detailed in this supplement. This includes the proportion of active participant plans with a not-stated First Nations status; not-stated culturally and linguistically diverse (CALD) status; 'other' gender; missing data about reported level of function, 'access met' and first planning decisions; and 'other disability' types. There may be some minor instances of information being restated in this report as data is further refined.

When interpreting the results detailed in this supplement, please also consider the following:

Percentage figures have been rounded and may not always total to one hundred per cent.

Totals include participants with missing characteristics, where applicable.

Throughout this supplement, results are not adjusted for underlying differences in population characteristics, and hence comparisons of the results for subsections of the population should be interpreted with caution.

"n/a" means that results cannot be measured.

There are five parts to this supplement.

## Part One: Participants and their plans

The number of participants residing in remote and very remote areas is based on the Modified Monash Model measure of remoteness (Tables G.9).

<sup>65</sup> The cumulative results are measured as the numbers of active participants in residential aged care at the end of each quarter. The incremental results are the change in cumulative number of active participants in residential aged care each quarter. Quarterly results are reported based on a rolling 3 year period.

<sup>66</sup> Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

<sup>67</sup> From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.

## Part Two: Participant and family/carers outcomes

Participant outcome results that were reported in previous QRDM supplements can now be found in the baseline outcomes and longitudinal outcomes datasets. These are available under “participant numbers and outcomes” on the “participant datasets” page of the NDIS website (<https://dataresearch.ndis.gov.au/datasets/participant-datasets>).

Baseline outcomes for participants and/or their families and carers were collected for 98% of participants who joined the Scheme from 1 July 2016. Baseline indicators are collected when a participant enters the Scheme, meaning the NDIS is yet to impact the outcome at this point. The results are based on responses provided to the outcomes framework questionnaires. For the June 2025 quarter, valid responses that were previously marked as missing are now included in the results.

Targets are not provided for ‘family and carer employment rate’ and ‘participant choice and control’, as the NDIA corporate plan no longer lists these as performance measures (Tables G.16 to G.20).

**Table G.16 Progress against the NDIA’s corporate plan metrics for ‘participant employment rate’ (n=13,378), and ‘participant social and community engagement rate’ (n=13,409), and the metric for ‘family and carer employment rate’ (n=13,957) at entry, first (R1) and second (R2) plan reassessment, and the metric for ‘participant choice and control’ (n=8,070) at first (R1) and second (R2) plan reassessment - participants who had their first plan approved between 1 July 2016 and 30 June 2023 and have had a second plan reassessment to date - Victoria**

### Part Three: Participant experience

The tables in Part Three, summarise complaints submitted from the 1 July 2016 until the end of 2024-25 Q4. Table G.22 shows the number of complaints in 2024-25 Q4 compared with previous quarters by the source of complaint, by the complaint subject, and Participant Critical Incidents (PCIs) in 2024-25 Q4 compared with previous quarters. The list of complaint subjects reflects the combination of all options.

Table G.25 shows the number of complaints by type as well as by source and subject of complaint based on records. These results include all complaints submitted from 1 July 2016 and complaints made during that quarter.

An improvement was seen in participants' experience (Table G.23) in the September 2024 quarter – the first time since late 2023 – indicating that the NDIA's improvement initiatives are reducing the volume of complaints.

Figures reported for participant critical incidents (PCIs) exclude counts of 'withdrawn' or 'miscategorised' PCIs (Tables G.22 and G.24).

**Table G.21 Proportion of respondents who responded positively to questions about 'Early Supports' (n = 164 in Prior Quarters, n = 24 in 2024-25 Q4), 'Community Connections' (n = 1,843 in Prior Quarters, n = 258 in 2024-25 Q4), 'Apply for NDIS (overall)' (n = 1,633 in Prior Quarters, n = 290 in 2024-25 Q4), 'Plan Approval' (n = 4,231 in Prior Quarters, n = 748 in 2024-25 Q4), 'Plan Implementation' (n = 3,750 in Prior Quarters, n = 491 in 2024-25 Q4) and 'Plan Reassessment' (n = 9,085 in Prior Quarters, n = 1,824 in 2024-25 Q4) – Victoria <sup>68 69</sup>**

<sup>70</sup> Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.

<sup>71</sup> Note that 58% of all complainants made only one complaint, 20% made two complaints, and 22% made three or more complaints.

<sup>72</sup> It is possible to record multiple related parties as the source of a complaint, and in some cases, both participants and providers or other parties are linked to a single complaint. Where both a participant and a provider are a related party to a single complaint, the case is counted under both categories.

The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.

<sup>74</sup> It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceed the total in each period.

<sup>75</sup> Data is reported with one month lag; therefore results for last month of the current quarter are not included.

<sup>76</sup> Supports in dispute data is only available for 2022-23 Q3 onwards.

## Part Four: Providers and the growing market

Part Four has been updated to focus on active provider counts and payments made to these providers across varying registration status and funds management types.

‘Active providers’ refers to those who have received payment in the quarter for supporting NDIS participants (Table G.31). The count of active providers excludes providers with a missing Australian Business Number (ABN).

Plan management fees, which are payments from NDIA-managed funding, are reclassified as plan-managed funding payments for the purpose of counting providers. Therefore, the count of NDIA-managed providers excludes providers that only received plan management fees and no other NDIA-managed funding payments (Table G.32).

From 14 October 2024, it is mandatory for participants with self-managed funding payments to include the Australian Business Number (ABN) of the associated provider or provide a reason why it isn’t available. Prior to this date, providing the Australian Business Number (ABN) was voluntary; therefore, the count of providers for self-managed participants before this date should only be used as a reference (Table G.31).

Total active provider payments are on a cash and in-kind basis. In-kind payments are included in the total NDIA-managed payments to registered providers (Table G.32).

**Table G.31 Number of active providers in 2024-25 Q4 by registration status and funds management type – Victoria** <sup>77</sup>

Funds management type	Registered	Unregistered	Total providers
NDIA-managed	2,755	0	2,755
Plan-managed	5,644	54,043	59,394
Self-managed	2,848	41,019	43,769
<b>All funds management types</b>	<b>6,235</b>	<b>77,856</b>	<b>83,779</b>

**Table G.32 Total active provider payments in 2024-25 Q4 by registration status and funds management type (\$m) – Victoria** <sup>78 79</sup>

Funds management type	Registered	Unregistered	All registration statuses
NDIA-managed	631	0	631
Plan-managed	1,123	864	1,995
Self-managed	99	214	364
<b>All funds management types</b>	<b>1,853</b>	<b>1,078</b>	<b>2,991</b>

<sup>77</sup> Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.

<sup>78</sup> A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".

<sup>79</sup> Registration status is determined as at the posting date of payment.

## Part Five: Financial sustainability

Average annualised committed supports (Tables G.33 to G.37) are derived from the total annualised committed supports in the current plans of active participants as at 30 June 2025. Average payments (Tables G.35 to G.37) are calculated as the sum of the payments in the 12-month period to 30 June 2025, divided by the average number of participants who are active per working day in each month over the same period. They have been rounded to the nearest hundred dollars. Figures are not shown if there is insufficient data in the group.

Total annualised committed supports are those in the current plans of active participants as at 30 June 2025. ‘Total payments’ refers to those paid over the 12 months to 30 June 2025 (Tables G.38 to G.40).

Total annualised committed supports for home modifications were \$120.8 million. Of which, \$119.9 million (99%) has been allocated for specialised disability accommodation (SDA) supports, and \$0.9 million (1%) has been allocated for non-SDA supports.

2023-24	13,544.1	10,381.4	77%
2024-25	14,889.7	10,918.3	73%

<sup>81</sup> Total payments for home modifications were \$56.1 million. Of which, \$26.2 million (46.7%) has been paid for specialised disability accommodation (SDA) supports, and \$29.9 million (53.3%) has been paid for non-SDA supports. Total annualised committed supports for home modifications were \$96.8 million. Of which, \$35.0 million (36%) has been allocated for specialised disability accommodation (SDA) supports, and \$61.8 million (64%) has been allocated for non-SDA supports.

<sup>82</sup> The utilisation rate for 2024-25 will likely increase due to a lag between when support is provided and when it is paid for.

Table G.41 Percentage change in plan budgets for active participants per quarter – Victoria <sup>83</sup>

Inflation type	Jun-23	Sep-23	Dec-23	Mar-24	Jun-24	Sep-24	Dec-24	Mar-25	Jun-25
Intraplan Inflation	8.6%	10.8%	7.9%	6.4%	8.9%	9.0%	8.0%	6.3%	6.1%

Total Inflation	11.4%	14.4%	9.6%	6.8%	9.8%	11.9%	11.4%	10.1%	9.1%

<sup>83</sup> The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

## Supplement H: Queensland

---

Adapting to the new computer system and processes has impacted some data detailed in this supplement. This includes the proportion of active participant plans with a not-stated First Nations status; not-stated culturally and linguistically diverse (CALD) status; 'other' gender; missing data about reported level of function, 'access met' and first planning decisions; and 'other disability' types. There may be some minor instances of information being restated in this report as data is further refined.

When interpreting the results detailed in this supplement, please also consider the following:

Percentage figures have been rounded and may not always total to one hundred per cent.

Totals include participants with missing characteristics, where applicable.

Throughout this supplement, results are not adjusted for underlying differences in population characteristics, and hence comparisons of the results for subsections of the population should be interpreted with caution.

"n/a" means that results cannot be measured.

There are five parts to this supplement.

# Part One: Participants and their plans

The number of participants residing in remote and very remote areas is based on the Modified Monash Model measure of remoteness (Tables H.9).

<sup>86</sup> The cumulative results are measured as the numbers of active participants in residential aged care at the end of each quarter. The incremental results are the change in cumulative number of active participants in residential aged care each quarter. Quarterly results are reported based on a rolling 3 year period.

<sup>87</sup> Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

<sup>88</sup> From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.

## Part Two: Participant and family/carers outcomes

Participant outcome results that were reported in previous QRDM supplements can now be found in the baseline outcomes and longitudinal outcomes datasets. These are available under “participant numbers and outcomes” on the “participant datasets” page of the NDIS website (<https://dataresearch.ndis.gov.au/datasets/participant-datasets>).

Baseline outcomes for participants and/or their families and carers were collected for 98% of participants who joined the Scheme from 1 July 2016. Baseline indicators are collected when a participant enters the Scheme, meaning the NDIS is yet to impact the outcome at this point. The results are based on responses provided to the outcomes framework questionnaires. For the June 2025 quarter, valid responses that were previously marked as missing are now included in the results.

Targets are not provided for ‘family and carer employment rate’ and ‘participant choice and control’, as the NDIA corporate plan no longer lists these as performance measures (Tables H.16 to H.20).

**Table H.16 Progress against the NDIA’s corporate plan metrics for ‘participant employment rate’ (n=9,666), and ‘participant social and community engagement rate’ (n=9,718), and the metric for ‘family and carer employment rate’ (n=9,528) at entry, first (R1) and second (R2) plan reassessment, and the metric for ‘participant choice and control’ (n=5,221) at first (R1) and second (R2) plan reassessment - participants who had their first plan approved between 1 July 2016 and 30 June 2023 and have had a second plan reassessment to date - Queensland**

## Part Three: Participant experience

The tables in Part Three, summarise complaints submitted from the 1 July 2016 until the end of 2024-25 Q4. Table H.22 shows the number of complaints in 2024-25 Q4 compared with previous quarters by the source of complaint, by the complaint subject, and Participant Critical Incidents (PCIs) in 2024-25 Q4 compared with previous quarters. The list of complaint subjects reflects the combination of all options.

Table H.25 shows the number of complaints by type as well as by source and subject of complaint based on records. These results include all complaints submitted from 1 July 2016 and complaints made during that quarter.

An improvement was seen in participants' experience (Table H.23) in the September 2024 quarter – the first time since late 2023 – indicating that the NDIA's improvement initiatives are reducing the volume of complaints.

Figures reported for participant critical incidents (PCIs) exclude counts of 'withdrawn' or 'miscategorised' PCIs (Tables H.22 and H.24).

**Table H.21 Proportion of respondents who responded positively to questions about 'Early Supports' (n = 245 in Prior Quarters, n = 22 in 2024-25 Q4), 'Community Connections' (n = 2,120 in Prior Quarters, n = 205 in 2024-25 Q4), 'Apply for NDIS (overall)' (n = 1,732 in Prior Quarters, n = 284 in 2024-25 Q4), 'Plan Approval' (n = 3,871 in Prior Quarters, n = 708 in 2024-25 Q4), 'Plan Implementation' (n = 3,508 in Prior Quarters, n = 465 in 2024-25 Q4) and 'Plan Reassessment' (n = 9,307 in Prior Quarters, n = 2,277 in 2024-25 Q4) – Queensland <sup>89 90</sup>**

<sup>91</sup> Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.

<sup>92</sup> Note that 59% of all complainants made only one complaint, 20% made two complaints, and 21% made three or more complaints.

<sup>93</sup> It is possible to record multiple related parties as the source of a complaint, and in some cases, both participants and providers or other parties are linked to a single complaint. Where both a participant and a provider are a related party to a single complaint, the case is counted under both categories.

<sup>94</sup> The Tribunal will affirm the decision under review if it finds that the NDIA has made the correct decision, or vary the decision under review if it finds the NDIA's decision should be altered in some way. The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.

<sup>95</sup> It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceeds the total in each period.

<sup>96</sup> Data is reported with one month lag; therefore results for last month of the current quarter are not included.

<sup>97</sup> Supports in dispute data is only available for 2022-23 Q3 onwards.

# Part Four: Providers and the growing market

Part Four has been updated to focus on active provider counts and payments made to these providers across varying registration status and funds management types.

‘Active providers’ refers to those who have received payment in the quarter for supporting NDIS participants (Table H.31). The count of active providers excludes providers with a missing Australian Business Number (ABN).

Plan management fees, which are payments from NDIA-managed funding, are reclassified as plan-managed funding payments for the purpose of counting providers. Therefore, the count of NDIA-managed providers excludes providers that only received plan management fees and no other NDIA-managed funding payments (Table H.32).

From 14 October 2024, it is mandatory for participants with self-managed funding payments to include the Australian Business Number (ABN) of the associated provider or provide a reason why it isn’t available. Prior to this date, providing the Australian Business Number (ABN) was voluntary; therefore, the count of providers for self-managed participants before this date should only be used as a reference (Table H.31).

Total active provider payments are on a cash and in-kind basis. In-kind payments are included in the total NDIA-managed payments to registered providers (Table H.32).

**Table H.31 Number of active providers in 2024-25 Q4 by registration status and funds management type – Queensland <sup>98</sup>**

Funds management type	Registered	Unregistered	Total providers
NDIA-managed	2,474	0	2,474
Plan-managed	4,597	49,240	53,615
Self-managed	2,340	29,512	31,756
All funds management types	5,121	65,497	70,385

**Table H.32 Total active provider payments in 2024-25 Q4 by registration status and funds management type (\$m) – Queensland <sup>99 100</sup>**

Funds management type	Registered	Unregistered	All registration statuses
NDIA-managed	617	0	617
Plan-managed	872	804	1,685
Self-managed	69	160	264
All funds management types	1,558	964	2,566

<sup>98</sup> Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.

<sup>99</sup> A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".

<sup>100</sup> Registration status is determined as at the posting date of payment.

# Part Five: Financial sustainability

Average annualised committed supports (Tables H.33 to H.37) are derived from the total annualised committed supports in the current plans of active participants as at 30 June 2025. Average payments (Tables H.35 to H.37) are calculated as the sum of the payments in the 12-month period to 30 June 2025, divided by the average number of participants who are active per working day in each month over the same period. They have been rounded to the nearest hundred dollars. Figures are not shown if there is insufficient data in the group.

Total annualised committed supports are those in the current plans of active participants as at 30 June 2025. ‘Total payments’ refers to those paid over the 12 months to 30 June 2025 (Tables H.38 to H.40).

2024-25	13,045.2	9,427.2	72%

<sup>102</sup> Total payments for home modifications were \$62.5 million. Of which, \$36.8 million (58.9%) has been paid for specialised disability accommodation (SDA) supports, and \$25.7 million (41.1%) has been paid for non-SDA supports. Total annualised committed supports for home modifications were \$101.5 million. Of which, \$44.7 million (44%) has been allocated for specialised disability accommodation (SDA) supports, and \$56.7 million (56%) has been allocated for non-SDA supports.

<sup>103</sup> The utilisation rate for 2024-25 will likely increase due to a lag between when support is provided and when it is paid for.

Total Inflation	12.1%	16.4%	14.0%	8.2%	10.7%	13.4%	12.6%	11.1%	10.1%

<sup>104</sup> The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

## Supplement I: Western Australia

---

Adapting to the new computer system and processes has impacted some data detailed in this supplement. This includes the proportion of active participant plans with a not-stated First Nations status; not-stated culturally and linguistically diverse (CALD) status; 'other' gender; missing data about reported level of function, 'access met' and first planning decisions; and 'other disability' types. There may be some minor instances of information being restated in this report as data is further refined.

When interpreting the results detailed in this supplement, please also consider the following:

Percentage figures have been rounded and may not always total to one hundred per cent.

Totals include participants with missing characteristics, where applicable.

Throughout this supplement, results are not adjusted for underlying differences in population characteristics, and hence comparisons of the results for subsections of the population should be interpreted with caution.

"n/a" means that results cannot be measured.

There are five parts to this supplement.

# Part One: Participants and their plans

The number of participants residing in remote and very remote areas is based on the Modified Monash Model measure of remoteness (Tables I.9).

<sup>108</sup> Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

<sup>109</sup> From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.

## Part Two: Participant and family/carers outcomes

Participant outcome results that were reported in previous QRDM supplements can now be found in the baseline outcomes and longitudinal outcomes datasets. These are available under “participant numbers and outcomes” on the “participant datasets” page of the NDIS website (<https://dataresearch.ndis.gov.au/datasets/participant-datasets>).

Baseline outcomes for participants and/or their families and carers were collected for 98% of participants who joined the Scheme from 1 July 2016. Baseline indicators are collected when a participant enters the Scheme, meaning the NDIS is yet to impact the outcome at this point. The results are based on responses provided to the outcomes framework questionnaires. For the June 2025 quarter, valid responses that were previously marked as missing are now included in the results.

Targets are not provided for ‘family and carer employment rate’ and ‘participant choice and control’, as the NDIA corporate plan no longer lists these as performance measures (Tables I.16 to I.20).

## Part Three: Participant experience

The tables in Part Three, summarise complaints submitted from the 1 July 2016 until the end of 2024-25 Q4. Table I.22 shows the number of complaints in 2024-25 Q4 compared with previous quarters by the source of complaint, by the complaint subject, and Participant Critical Incidents (PCIs) in 2024-25 Q4 compared with previous quarters. The list of complaint subjects reflects the combination of all options.

Table I.25 shows the number of complaints by type as well as by source and subject of complaint based on records. These results include all complaints submitted from 1 July 2016 and complaints made during that quarter.

An improvement was seen in participants' experience (Table I.23) in the September 2024 quarter – the first time since late 2023 – indicating that the NDIA's improvement initiatives are reducing the volume of complaints.

Figures reported for participant critical incidents (PCIs) exclude counts of 'withdrawn' or 'miscategorised' PCIs (Tables I.22 and I.24).

**Table I.21 Proportion of respondents who responded positively to questions about 'Early Supports' (n = 27 in Prior Quarters, n = n/a in 2024-25 Q4), 'Community Connections' (n = 567 in Prior Quarters, n = 62 in 2024-25 Q4), 'Apply for NDIS (overall)' (n = 557 in Prior Quarters, n = 103 in 2024-25 Q4), 'Plan Approval' (n = 1,718 in Prior Quarters, n = 314 in 2024-25 Q4), 'Plan Implementation' (n = 1,393 in Prior Quarters, n = 186 in 2024-25 Q4) and 'Plan Reassessment' (n = 3,991 in Prior Quarters, n = 969 in 2024-25 Q4) - Western Australia <sup>110 111</sup>**

<sup>112</sup> Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.

<sup>113</sup> Note that 61% of all complainants made only one complaint, 21% made two complaints, and 18% made three or more complaints.

<sup>115</sup> The Tribunal will affirm the decision under review if it finds that the NDIA has made the correct decision, or vary the decision under review if it finds the NDIA's decision should be altered in some way. The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.

<sup>116</sup> It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceeds the total in each period.

<sup>117</sup> Data is reported with one month lag; therefore results for last month of the current quarter are not included.

<sup>118</sup> Supports in dispute data is only available for 2022-23 Q3 onwards.

# Part Four: Providers and the growing market

Part Four has been updated to focus on active provider counts and payments made to these providers across varying registration status and funds management types.

‘Active providers’ refers to those who have received payment in the quarter for supporting NDIS participants (Table I.31). The count of active providers excludes providers with a missing Australian Business Number (ABN).

Plan management fees, which are payments from NDIA-managed funding, are reclassified as plan-managed funding payments for the purpose of counting providers. Therefore, the count of NDIA-managed providers excludes providers that only received plan management fees and no other NDIA-managed funding payments (Table I.32).

From 14 October 2024, it is mandatory for participants with self-managed funding payments to include the Australian Business Number (ABN) of the associated provider or provide a reason why it isn’t available. Prior to this date, providing the Australian Business Number (ABN) was voluntary; therefore, the count of providers for self-managed participants before this date should only be used as a reference (Table I.31).

Total active provider payments are on a cash and in-kind basis. In-kind payments are included in the total NDIA-managed payments to registered providers (Table I.32).

**Table I.31 Number of active providers in 2024-25 Q4 by registration status and funds management type - Western Australia <sup>119</sup>**

Funds management type	Registered	Unregistered	Total providers
NDIA-managed	1,226	0	1,226
Plan-managed	2,161	15,891	17,985
Self-managed	1,081	12,806	13,856
All funds management types	2,470	24,004	26,397

**Table I.32 Total active provider payments in 2024-25 Q4 by registration status and funds management type (\$m) - Western Australia <sup>120 121</sup>**

Funds management type	Registered	Unregistered	All registration statuses
NDIA-managed	339	0	339
Plan-managed	388	221	616
Self-managed	37	58	118
All funds management types	764	278	1,072

<sup>119</sup> Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.

<sup>120</sup> A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".

<sup>121</sup> Registration status is determined as at the posting date of payment.

Part Five: Financial sustainability

Average annualised committed supports (Tables I.33 to I.37) are derived from the total annualised committed supports in the current plans of active participants as at 30 June 2025. Average payments (Tables I.35 to I.37) are calculated as the sum of the payments in the 12-month period to 30 June 2025, divided by the average number of participants who are active per working day in each month over the same period. They have been rounded to the nearest hundred dollars. Figures are not shown if there is insufficient data in the group.

Total annualised committed supports are those in the current plans of active participants as at 30 June 2025. ‘Total payments’ refers to those paid over the 12 months to 30 June 2025 (Tables I.38 to I.40).

<sup>124</sup> There were \$3.6 million in total payments for the year ending 30 June 2025, with support category information missing. These payments are not shown separately but are included in the total payments for all support categories.

<sup>125</sup> Total payments for home modifications were \$19.2 million. Of which, \$8.8 million (45.9%) has been paid for specialised disability accommodation (SDA) supports, and \$10.4 million (54.1%) has been paid for non-SDA supports. Total annualised committed supports for home modifications were \$35.0 million. Of which, \$12.6 million (36%) has been allocated for specialised disability accommodation (SDA) supports, and \$22.4 million (64%) has been allocated for non-SDA supports.

<sup>126</sup> The utilisation rate for 2024-25 will likely increase due to a lag between when support is provided and when it is paid for.

<sup>127</sup> The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

## Supplement J:

### South Australia

---

Adapting to the new computer system and processes has impacted some data detailed in this supplement. This includes the proportion of active participant plans with a not-stated First Nations status; not-stated culturally and linguistically diverse (CALD) status; 'other' gender; missing data about reported level of function, 'access met' and first planning decisions; and 'other disability' types. There may be some minor instances of information being restated in this report as data is further refined.

When interpreting the results detailed in this supplement, please also consider the following:

Percentage figures have been rounded and may not always total to one hundred per cent.

Totals include participants with missing characteristics, where applicable.

Throughout this supplement, results are not adjusted for underlying differences in population characteristics, and hence comparisons of the results for subsections of the population should be interpreted with caution.

"n/a" means that results cannot be measured.

There are five parts to this supplement.

# Part One: Participants and their plans

The number of participants residing in remote and very remote areas is based on the Modified Monash Model measure of remoteness (Tables J.9).

<sup>131</sup> Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

<sup>132</sup> From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.

## Part Two: Participant and family/carers outcomes

Participant outcome results that were reported in previous QRDM supplements can now be found in the baseline outcomes and longitudinal outcomes datasets. These are available under “participant numbers and outcomes” on the “participant datasets” page of the NDIS website (<https://dataresearch.ndis.gov.au/datasets/participant-datasets>).

Baseline outcomes for participants and/or their families and carers were collected for 97% of participants who joined the Scheme from 1 July 2016. Baseline indicators are collected when a participant enters the Scheme, meaning the NDIS is yet to impact the outcome at this point. The results are based on responses provided to the outcomes framework questionnaires. For the June 2025 quarter, valid responses that were previously marked as missing are now included in the results.

Targets are not provided for ‘family and carer employment rate’ and ‘participant choice and control’, as the NDIA corporate plan no longer lists these as performance measures (Tables J.16 to J.20).

### Part Three: Participant experience

The tables in Part Three, summarise complaints submitted from the 1 July 2016 until the end of 2024-25 Q4. Table J.22 shows the number of complaints in 2024-25 Q4 compared with previous quarters by the source of complaint, by the complaint subject, and Participant Critical Incidents (PCIs) in 2024-25 Q4 compared with previous quarters. The list of complaint subjects reflects the combination of all options.

Table J.25 shows the number of complaints by type as well as by source and subject of complaint based on records. These results include all complaints submitted from 1 July 2016 and complaints made during that quarter.

An improvement was seen in participants' experience (Table J.23) in the September 2024 quarter – the first time since late 2023 – indicating that the NDIA's improvement initiatives are reducing the volume of complaints.

Figures reported for participant critical incidents (PCIs) exclude counts of 'withdrawn' or 'miscategorised' PCIs (Tables J.22 and J.24).

**Table J.21 Proportion of respondents who responded positively to questions about 'Early Supports' (n = 84 in Prior Quarters, n = n/a in 2024-25 Q4), 'Community Connections' (n = 698 in Prior Quarters, n = 86 in 2024-25 Q4), 'Apply for NDIS (overall)' (n = 677 in Prior Quarters, n = 151 in 2024-25 Q4), 'Plan Approval' (n = 1,737 in Prior Quarters, n = 317 in 2024-25 Q4), 'Plan Implementation' (n = 1,535 in Prior Quarters, n = 252 in 2024-25 Q4) and 'Plan Reassessment' (n = 3,989 in Prior Quarters, n = 877 in 2024-25 Q4) - South Australia** <sup>133 134</sup>

<sup>135</sup> Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.

<sup>136</sup> Note that 57% of all complainants made only one complaint, 21% made two complaints, and 22% made three or more complaints.

<sup>138</sup> The Tribunal will affirm the decision under review if it finds that the NDIA has made the correct decision, or vary the decision under review if it finds the NDIA's decision should be altered in some way. The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.

<sup>139</sup> It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceeds the total in each period.  
<sup>140</sup> Data is reported with one month lag; therefore results for last month of the current quarter are not included.  
<sup>141</sup> Supports in dispute data is only available for 2022-23 Q3 onwards.

# Part Four: Providers and the growing market

Part Four has been updated to focus on active provider counts and payments made to these providers across varying registration status and funds management types.

‘Active providers’ refers to those who have received payment in the quarter for supporting NDIS participants (Table J.31). The count of active providers excludes providers with a missing Australian Business Number (ABN).

Plan management fees, which are payments from NDIA-managed funding, are reclassified as plan-managed funding payments for the purpose of counting providers. Therefore, the count of NDIA-managed providers excludes providers that only received plan management fees and no other NDIA-managed funding payments (Table J.32).

From 14 October 2024, it is mandatory for participants with self-managed funding payments to include the Australian Business Number (ABN) of the associated provider or provide a reason why it isn’t available. Prior to this date, providing the Australian Business Number (ABN) was voluntary; therefore, the count of providers for self-managed participants before this date should only be used as a reference (Table J.31).

Total active provider payments are on a cash and in-kind basis. In-kind payments are included in the total NDIA-managed payments to registered providers (Table J.32).

**Table J.31 Number of active providers in 2024-25 Q4 by registration status and funds management type - South Australia** <sup>142</sup>

Funds management type	Registered	Unregistered	Total providers
NDIA-managed	913	0	913
Plan-managed	2,031	15,412	17,361
Self-managed	934	9,938	10,843
All funds management types	2,265	20,832	23,007

**Table J.32 Total active provider payments in 2024-25 Q4 by registration status and funds management type (\$m) - South Australia** <sup>143 144</sup>

Funds management type	Registered	Unregistered	All registration statuses
NDIA-managed	261	0	261
Plan-managed	407	259	668
Self-managed	24	42	78
All funds management types	691	300	1,007

<sup>142</sup> Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.

<sup>143</sup> A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".

<sup>144</sup> Registration status is determined as at the posting date of payment.

## Part Five: Financial sustainability

Average annualised committed supports (Tables J.33 to J.37) are derived from the total annualised committed supports in the current plans of active participants as at 30 June 2025. Average payments (Tables J.35 to J.37) are calculated as the sum of the payments in the 12-month period to 30 June 2025, divided by the average number of participants who are active per working day in each month over the same period. They have been rounded to the nearest hundred dollars. Figures are not shown if there is insufficient data in the group.

Total annualised committed supports are those in the current plans of active participants as at 30 June 2025. ‘Total payments’ refers to those paid over the 12 months to 30 June 2025 (Tables J.38 to J.40).

2024-25	5,066.0	3,687.9	73%

<sup>146</sup> Total payments for home modifications were \$15.3 million. Of which, \$8.0 million (51.9%) has been paid for specialised disability accommodation (SDA) supports, and \$7.4 million (48.1%) has been paid for non-SDA supports. Total annualised committed supports for home modifications were \$26.8 million. Of which, \$11.2 million (42%) has been allocated for specialised disability accommodation (SDA) supports, and \$15.6 million (58%) has been allocated for non-SDA supports.

<sup>147</sup> The utilisation rate for 2024-25 will likely increase due to a lag between when support is provided and when it is paid for.

<sup>148</sup> The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

## Supplement K:

### Tasmania

---

Adapting to the new computer system and processes has impacted some data detailed in this supplement. This includes the proportion of active participant plans with a not-stated First Nations status; not-stated culturally and linguistically diverse (CALD) status; 'other' gender; missing data about reported level of function, 'access met' and first planning decisions; and 'other disability' types. There may be some minor instances of information being restated in this report as data is further refined.

When interpreting the results detailed in this supplement, please also consider the following:

Percentage figures have been rounded and may not always total to one hundred per cent.

Totals include participants with missing characteristics, where applicable.

Throughout this supplement, results are not adjusted for underlying differences in population characteristics, and hence comparisons of the results for subsections of the population should be interpreted with caution.

"n/a" means that results cannot be measured.

There are five parts to this supplement.

# Part One: Participants and their plans

The number of participants residing in remote and very remote areas is based on the Modified Monash Model measure of remoteness (Tables K.9).

<sup>152</sup> Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

<sup>153</sup> From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.

## Part Two: Participant and family/carers outcomes

Participant outcome results that were reported in previous QRDM supplements can now be found in the baseline outcomes and longitudinal outcomes datasets. These are available under “participant numbers and outcomes” on the “participant datasets” page of the NDIS website (<https://dataresearch.ndis.gov.au/datasets/participant-datasets>).

Baseline outcomes for participants and/or their families and carers were collected for 97% of participants who joined the Scheme from 1 July 2016. Baseline indicators are collected when a participant enters the Scheme, meaning the NDIS is yet to impact the outcome at this point. The results are based on responses provided to the outcomes framework questionnaires. For the June 2025 quarter, valid responses that were previously marked as missing are now included in the results.

Targets are not provided for ‘family and carer employment rate’ and ‘participant choice and control’, as the NDIA corporate plan no longer lists these as performance measures (Tables K.16 to K.20).

### Part Three: Participant experience

The tables in Part Three, summarise complaints submitted from the 1 July 2016 until the end of 2024-25 Q4. Table K.22 shows the number of complaints in 2024-25 Q4 compared with previous quarters by the source of complaint, by the complaint subject, and Participant Critical Incidents (PCIs) in 2024-25 Q4 compared with previous quarters. The list of complaint subjects reflects the combination of all options.

Table K.25 shows the number of complaints by type as well as by source and subject of complaint based on records. These results include all complaints submitted from 1 July 2016 and complaints made during that quarter.

An improvement was seen in participants' experience (Table K.23) in the September 2024 quarter – the first time since late 2023 – indicating that the NDIA's improvement initiatives are reducing the volume of complaints.

Figures reported for participant critical incidents (PCIs) exclude counts of 'withdrawn' or 'miscategorised' PCIs (Tables K.22 and K.24).

**Table K.21 Proportion of respondents who responded positively to questions about 'Early Supports' (n = n/a in Prior Quarters, n = n/a in 2024-25 Q4), 'Community Connections' (n = 126 in Prior Quarters, n = 28 in 2024-25 Q4), 'Apply for NDIS (overall)' (n = 192 in Prior Quarters, n = 48 in 2024-25 Q4), 'Plan Approval' (n = 1,286 in Prior Quarters, n = 196 in 2024-25 Q4), 'Plan Implementation' (n = 1,079 in Prior Quarters, n = 99 in 2024-25 Q4) and 'Plan Reassessment' (n = 2,435 in Prior Quarters, n = 600 in 2024-25 Q4) – Tasmania** <sup>154 155</sup>

<sup>156</sup> Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.

<sup>157</sup> Note that 60% of all complainants made only one complaint, 21% made two complaints, and 19% made three or more complaints.

<sup>159</sup> The Tribunal will affirm the decision under review if it finds that the NDIA has made the correct decision, or vary the decision under review if it finds the NDIA's decision should be altered in some way. The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.

<sup>160</sup> It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceeds the total in each period.

<sup>161</sup> Data is reported with one month lag; therefore results for last month of the current quarter are not included.

<sup>162</sup> Supports in dispute data is only available for 2022-23 Q3 onwards.

# Part Four: Providers and the growing market

Part Four has been updated to focus on active provider counts and payments made to these providers across varying registration status and funds management types.

‘Active providers’ refers to those who have received payment in the quarter for supporting NDIS participants (Table K.31). The count of active providers excludes providers with a missing Australian Business Number (ABN).

Plan management fees, which are payments from NDIA-managed funding, are reclassified as plan-managed funding payments for the purpose of counting providers. Therefore, the count of NDIA-managed providers excludes providers that only received plan management fees and no other NDIA-managed funding payments (Table K.32).

From 14 October 2024, it is mandatory for participants with self-managed funding payments to include the Australian Business Number (ABN) of the associated provider or provide a reason why it isn’t available. Prior to this date, providing the Australian Business Number (ABN) was voluntary; therefore, the count of providers for self-managed participants before this date should only be used as a reference (Table K.31).

Total active provider payments are on a cash and in-kind basis. In-kind payments are included in the total NDIA-managed payments to registered providers (Table K.32).

**Table K.31 Number of active providers in 2024-25 Q4 by registration status and funds management type – Tasmania** <sup>163</sup>

Funds management type	Registered	Unregistered	Total providers
NDIA-managed	325	0	325
Plan-managed	879	4,399	5,260
Self-managed	404	2,785	3,178
All funds management types	1,032	6,036	7,046

**Table K.32 Total active provider payments in 2024-25 Q4 by registration status and funds management type (\$m) – Tasmania** <sup>164 165</sup>

Funds management type	Registered	Unregistered	All registration statuses
NDIA-managed	93	0	93
Plan-managed	99	70	169
Self-managed	6	12	22
All funds management types	198	82	284

<sup>163</sup> Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.

<sup>164</sup> A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".

<sup>165</sup> Registration status is determined as at the posting date of payment.

## Part Five: Financial sustainability

Average annualised committed supports (Tables K.33 to K.37) are derived from the total annualised committed supports in the current plans of active participants as at 30 June 2025. Average payments (Tables K.35 to K.37) are calculated as the sum of the payments in the 12-month period to 30 June 2025, divided by the average number of participants who are active per working day in each month over the same period. They have been rounded to the nearest hundred dollars. Figures are not shown if there is insufficient data in the group.

Total annualised committed supports are those in the current plans of active participants as at 30 June 2025. ‘Total payments’ refers to those paid over the 12 months to 30 June 2025 (Tables K.38 to K.40).

2023-24	1,349.7	999.0	74%
2024-25	1,468.0	1,044.7	71%

<sup>167</sup> Total payments for home modifications were \$4.7 million. Of which, \$0.8 million (17.1%) has been paid for specialised disability accommodation (SDA) supports, and \$3.9 million (82.9%) has been paid for non-SDA supports. Total annualised committed supports for home modifications were \$8.4 million. Of which, \$1.1 million (13%) has been allocated for specialised disability accommodation (SDA) supports, and \$7.3 million (87%) has been allocated for non-SDA supports.

<sup>168</sup> The utilisation rate for 2024-25 will likely increase due to a lag between when support is provided and when it is paid for.

<sup>169</sup> The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

## Supplement L:

### Australian Capital Territory

---

Adapting to the new computer system and processes has impacted some data detailed in this supplement. This includes the proportion of active participant plans with a not-stated First Nations status; not-stated culturally and linguistically diverse (CALD) status; 'other' gender; missing data about reported level of function, 'access met' and first planning decisions; and 'other disability' types. There may be some minor instances of information being restated in this report as data is further refined.

When interpreting the results detailed in this supplement, please also consider the following:

Percentage figures have been rounded and may not always total to one hundred per cent.

Totals include participants with missing characteristics, where applicable.

Throughout this supplement, results are not adjusted for underlying differences in population characteristics, and hence comparisons of the results for subsections of the population should be interpreted with caution.

"n/a" means that results cannot be measured.

There are five parts to this supplement.

# Part One: Participants and their plans

The number of participants residing in remote and very remote areas is based on the Modified Monash Model measure of remoteness (Tables L.9).

<sup>172</sup> Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

<sup>173</sup> From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.

## Part Two: Participant and family/carers outcomes

Participant outcome results that were reported in previous QRDM supplements can now be found in the baseline outcomes and longitudinal outcomes datasets. These are available under “participant numbers and outcomes” on the “participant datasets” page of the NDIS website (<https://dataresearch.ndis.gov.au/datasets/participant-datasets>).

Baseline outcomes for participants and/or their families and carers were collected for 96% of participants who joined the Scheme from 1 July 2016. Baseline indicators are collected when a participant enters the Scheme, meaning the NDIS is yet to impact the outcome at this point. The results are based on responses provided to the outcomes framework questionnaires. For the June 2025 quarter, valid responses that were previously marked as missing are now included in the results.

Targets are not provided for ‘family and carer employment rate’ and ‘participant choice and control’, as the NDIA corporate plan no longer lists these as performance measures (Tables L.16 to L.20).

## Part Three: Participant experience

The tables in Part Three, summarise complaints submitted from the 1 July 2016 until the end of 2024-25 Q4. Table L.22 shows the number of complaints in 2024-25 Q4 compared with previous quarters by the source of complaint, by the complaint subject, and Participant Critical Incidents (PCIs) in 2024-25 Q4 compared with previous quarters. The list of complaint subjects reflects the combination of all options.

Table L.25 shows the number of complaints by type as well as by source and subject of complaint based on records. These results include all complaints submitted from 1 July 2016 and complaints made during that quarter.

An improvement was seen in participants' experience (Table L.23) in the September 2024 quarter – the first time since late 2023 – indicating that the NDIA's improvement initiatives are reducing the volume of complaints.

Figures reported for participant critical incidents (PCIs) exclude counts of 'withdrawn' or 'miscategorised' PCIs (Tables L.22 and L.24).

**Table L.21 Proportion of respondents who responded positively to questions about 'Early Supports' (n = n/a in Prior Quarters, n = n/a in 2024-25 Q4), 'Community Connections' (n = 172 in Prior Quarters, n = n/a in 2024-25 Q4), 'Apply for NDIS (overall)' (n = 182 in Prior Quarters, n = 41 in 2024-25 Q4), 'Plan Approval' (n = 491 in Prior Quarters, n = 156 in 2024-25 Q4), 'Plan Implementation' (n = 271 in Prior Quarters, n = 61 in 2024-25 Q4) and 'Plan Reassessment' (n = 690 in Prior Quarters, n = 242 in 2024-25 Q4) - Australian Capital Territory <sup>174 175</sup>**

<sup>176</sup> Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.

<sup>177</sup> Note that 57% of all complainants made only one complaint, 21% made two complaints, and 21% made three or more complaints.

The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.

<sup>180</sup> It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceeds the total in each period.

<sup>181</sup> Data is reported with one month lag; therefore results for last month of the current quarter are not included.

<sup>182</sup> Supports in dispute data is only available for 2022-23 Q3 onwards.

# Part Four: Providers and the growing market

Part Four has been updated to focus on active provider counts and payments made to these providers across varying registration status and funds management types.

‘Active providers’ refers to those who have received payment in the quarter for supporting NDIS participants (Table L.31). The count of active providers excludes providers with a missing Australian Business Number (ABN).

Plan management fees, which are payments from NDIA-managed funding, are reclassified as plan-managed funding payments for the purpose of counting providers. Therefore, the count of NDIA-managed providers excludes providers that only received plan management fees and no other NDIA-managed funding payments (Table L.32).

From 14 October 2024, it is mandatory for participants with self-managed funding payments to include the Australian Business Number (ABN) of the associated provider or provide a reason why it isn’t available. Prior to this date, providing the Australian Business Number (ABN) was voluntary; therefore, the count of providers for self-managed participants before this date should only be used as a reference (Table L.31).

Total active provider payments are on a cash and in-kind basis. In-kind payments are included in the total NDIA-managed payments to registered providers (Table L.32).

**Table L.31 Number of active providers in 2024-25 Q4 by registration status and funds management type - Australian Capital Territory** <sup>183</sup>

Funds management type	Registered	Unregistered	Total providers
NDIA-managed	333	0	333
Plan-managed	862	2,484	3,330
Self-managed	476	2,845	3,316
All funds management types	1,066	4,405	5,454

**Table L.32 Total active provider payments in 2024-25 Q4 by registration status and funds management type (\$m) - Australian Capital Territory** <sup>184 185</sup>

NDIA-managed	52	0	52
Plan-managed	70	26	97
Self-managed	10	12	25
All funds management types	132	38	174

<sup>183</sup> Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.

<sup>184</sup> A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".

<sup>185</sup> Registration status is determined as at the posting date of payment.

## Part Five: Financial sustainability

Average annualised committed supports (Tables L.33 to L.37) are derived from the total annualised committed supports in the current plans of active participants as at 30 June 2025. Average payments (Tables L.35 to L.37) are calculated as the sum of the payments in the 12-month period to 30 June 2025, divided by the average number of participants who are active per working day in each month over the same period. They have been rounded to the nearest hundred dollars. Figures are not shown if there is insufficient data in the group.

Total annualised committed supports are those in the current plans of active participants as at 30 June 2025. ‘Total payments’ refers to those paid over the 12 months to 30 June 2025 (Tables L.38 to L.40).

2023-24	810.3	615.7	76%
2024-25	880.3	636.9	72%

<sup>187</sup> Total payments for home modifications were \$3.7 million. Of which, \$2.6 million (69.8%) has been paid for specialised disability accommodation (SDA) supports, and \$1.1 million (30.2%) has been paid for non-SDA supports. Total annualised committed supports for home modifications were \$6.3 million. Of which, \$3.2 million (51%) has been allocated for specialised disability accommodation (SDA) supports, and \$3.0 million (49%) has been allocated for non-SDA supports.

<sup>188</sup> The utilisation rate for 2024-25 will likely increase due to a lag between when support is provided and when it is paid for.

Table L.41 Percentage change in plan budgets for active participants per quarter - Australian Capital Territory <sup>189</sup>

Inflation type	Jun-23	Sep-23	Dec-23	Mar-24	Jun-24	Sep-24	Dec-24	Mar-25	Jun-25
Intraplan Inflation	5.0%	7.6%	4.2%	3.0%	5.8%	7.0%	5.6%	3.7%	3.6%

Total Inflation	10.2%	12.5%	6.5%	5.9%	10.7%	12.9%	10.5%	7.2%	9.8%

<sup>189</sup> The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

## Supplement M: Northern Territory

---

Adapting to the new computer system and processes has impacted some data detailed in this supplement. This includes the proportion of active participant plans with a not-stated First Nations status; not-stated culturally and linguistically diverse (CALD) status; 'other' gender; missing data about reported level of function, 'access met' and first planning decisions; and 'other disability' types. There may be some minor instances of information being restated in this report as data is further refined.

When interpreting the results detailed in this supplement, please also consider the following:

Percentage figures have been rounded and may not always total to one hundred per cent.

Totals include participants with missing characteristics, where applicable.

Throughout this supplement, results are not adjusted for underlying differences in population characteristics, and hence comparisons of the results for subsections of the population should be interpreted with caution.

"n/a" means that results cannot be measured.

There are five parts to this supplement.

## Part One: Participants and their plans

The number of participants residing in remote and very remote areas is based on the Modified Monash Model measure of remoteness (Tables M.9).

<sup>193</sup> Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

<sup>194</sup> From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.

## Part Two: Participant and family/carers outcomes

Participant outcome results that were reported in previous QRDM supplements can now be found in the baseline outcomes and longitudinal outcomes datasets. These are available under “participant numbers and outcomes” on the “participant datasets” page of the NDIS website (<https://dataresearch.ndis.gov.au/datasets/participant-datasets>).

Baseline outcomes for participants and/or their families and carers were collected for 97% of participants who joined the Scheme from 1 July 2016. Baseline indicators are collected when a participant enters the Scheme, meaning the NDIS is yet to impact the outcome at this point. The results are based on responses provided to the outcomes framework questionnaires. For the June 2025 quarter, valid responses that were previously marked as missing are now included in the results.

Targets are not provided for ‘family and carer employment rate’ and ‘participant choice and control’, as the NDIA corporate plan no longer lists these as performance measures (Tables M.16 to M.20).

## Part Three: Participant experience

The tables in Part Three, summarise complaints submitted from the 1 July 2016 until the end of 2024-25 Q4. Table M.22 shows the number of complaints in 2024-25 Q4 compared with previous quarters by the source of complaint, by the complaint subject, and Participant Critical Incidents (PCIs) in 2024-25 Q4 compared with previous quarters. The list of complaint subjects reflects the combination of all options.

Table M.25 shows the number of complaints by type as well as by source and subject of complaint based on records. These results include all complaints submitted from 1 July 2016 and complaints made during that quarter.

An improvement was seen in participants' experience (Table M.23) in the September 2024 quarter – the first time since late 2023 – indicating that the NDIA's improvement initiatives are reducing the volume of complaints.

Figures reported for participant critical incidents (PCIs) exclude counts of 'withdrawn' or 'miscategorised' PCIs (Tables M.22 and M.24).

**Table M.21 Proportion of respondents who responded positively to questions about 'Early Supports' (n = n/a in Prior Quarters, n = n/a in 2024-25 Q4), 'Community Connections' (n = 42 in Prior Quarters, n = n/a in 2024-25 Q4), 'Apply for NDIS (overall)' (n = 35 in Prior Quarters, n = n/a in 2024-25 Q4), 'Plan Approval' (n = 251 in Prior Quarters, n = 68 in 2024-25 Q4), 'Plan Implementation' (n = 106 in Prior Quarters, n = n/a in 2024-25 Q4) and 'Plan Reassessment' (n = 415 in Prior Quarters, n = 161 in 2024-25 Q4) - Northern Territory <sup>195 196</sup>**

<sup>197</sup> Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.

<sup>198</sup> Note that 67% of all complainants made only one complaint, 19% made two complaints, and 15% made three or more complaints.

The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.

<sup>201</sup> It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceeds the total in each period.

<sup>202</sup> Data is reported with one month lag; therefore results for last month of the current quarter are not included.

<sup>203</sup> Supports in dispute data is only available for 2022-23 Q3 onwards.

# Part Four: Providers and the growing market

Part Four has been updated to focus on active provider counts and payments made to these providers across varying registration status and funds management types.

‘Active providers’ refers to those who have received payment in the quarter for supporting NDIS participants (Table M.31). The count of active providers excludes providers with a missing Australian Business Number (ABN).

Plan management fees, which are payments from NDIA-managed funding, are reclassified as plan-managed funding payments for the purpose of counting providers. Therefore, the count of NDIA-managed providers excludes providers that only received plan management fees and no other NDIA-managed funding payments (Table M.32).

From 14 October 2024, it is mandatory for participants with self-managed funding payments to include the Australian Business Number (ABN) of the associated provider or provide a reason why it isn’t available. Prior to this date, providing the Australian Business Number (ABN) was voluntary; therefore, the count of providers for self-managed participants before this date should only be used as a reference (Table M.31).

Total active provider payments are on a cash and in-kind basis. In-kind payments are included in the total NDIA-managed payments to registered providers (Table M.32).

**Table M.31 Number of active providers in 2024-25 Q4 by registration status and funds management type - Northern Territory** <sup>204</sup>

Funds management type	Registered	Unregistered	Total providers
NDIA-managed	276	0	276
Plan-managed	667	1,362	2,015
Self-managed	154	617	769
All funds management types	759	1,772	2,515

**Table M.32 Total active provider payments in 2024-25 Q4 by registration status and funds management type (\$m) - Northern Territory** <sup>205 206</sup>

Funds management type	Registered	Unregistered	All registration statuses
NDIA-managed	72	0	72
Plan-managed	74	27	101
Self-managed	1	2	4
All funds management types	147	29	177

<sup>204</sup> Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.

<sup>205</sup> A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".

<sup>206</sup> Registration status is determined as at the posting date of payment.

# Part Five: Financial sustainability

Average annualised committed supports (Tables M.33 to M.37) are derived from the total annualised committed supports in the current plans of active participants as at 30 June 2025. Average payments (Tables M.35 to M.37) are calculated as the sum of the payments in the 12-month period to 30 June 2025, divided by the average number of participants who are active per working day in each month over the same period. They have been rounded to the nearest hundred dollars. Figures are not shown if there is insufficient data in the group.

Total annualised committed supports are those in the current plans of active participants as at 30 June 2025. ‘Total payments’ refers to those paid over the 12 months to 30 June 2025 (Tables M.38 to M.40).

<sup>208</sup> Total payments for home modifications were \$1.2 million. Of which, \$0.7 million (57.8%) has been paid for specialised disability accommodation (SDA) supports, and \$0.5 million (42.2%) has been paid for non-SDA supports. Total annualised committed supports for home modifications were \$2.7 million. Of which, \$1.3 million (49%) has been allocated for specialised disability accommodation (SDA) supports, and \$1.4 million (51%) has been allocated for non-SDA supports.

<sup>209</sup> The utilisation rate for 2024-25 will likely increase due to a lag between when support is provided and when it is paid for.

<sup>210</sup> The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

# Supplement N:

## Comparison of key metrics by State/Territory

Comparison of key metrics by state and territory is available under Appendix D.

# Supplement O:

## Participants by service district and support type, and committed supports and payments by service district, and participation rates by gender, age group and service district

### Tables O.1:

Core supports enable participants to complete activities of daily living. Participant budgets often have a lot of flexibility to choose specific supports with their core support budgets but cannot reallocate this funding for other support purposes (i.e. capital or capacity building supports).

Capacity building supports enable participants to build their independence and skills. Participant budgets are allocated at a support category level and must be used to achieve the goals set out in the participant's plan.

Capital supports are investments, such as assistive technologies – equipment, home or vehicle modifications, or for Specialist Disability Accommodation (SDA). Participant budgets for this support purpose are restricted to specific items identified in the participant's plan.

### Tables O.1, O.2 and O.3:

Service districts are defined by the current address the participant resides in. 'Other' includes participants where the service district information is missing.

Other Territories includes Norfolk Island, Christmas Island and the Cocos (Keeling) Islands.

### Tables O.2 and O.3:

Average annualised committed supports are derived from total annualised committed supports in the current plans of active participants at 30 June 2025.

Average payments are calculated as the average of the annualised monthly payments in the 12 months period to 30 June 2025, weighted by the participants that are active in each month over the same period. They have been rounded to the nearest hundred dollars. Figures are not shown if there is insufficient data in the group.

### Tables O.4, O.5 and O.6:

Participation rate refers to the proportion of general population that are NDIS participants.

A small portion (<0.1%) of NDIS participants do not reside in the service districts shown in the tables. Participation rates for this cohort are not provided due to the absence of a corresponding population figure.

There has been an update in population numbers to reflect the most recent Australian estimated resident population as at 2023. The next release of the Australian estimated population as at 2024 is scheduled to occur on the 28 August 2025. There have been minimal changes to the overall population.

<sup>213</sup> State/Territory is defined by the current residing address of the participant.

<sup>214</sup> Other Territories includes Norfolk Island, Christmas Island and the Cocos (Keeling) Islands.

<sup>215</sup> Annualised supports committed to SDA in current plans refer to annualised supports committed for active participants who have SDA in their plans at 30 June 2025.

<sup>216</sup> Active providers of SDA supports in this table refer to any provider that has received a payment for providing SDA supports to NDIA-managed participants residing in the given jurisdiction.

<sup>217</sup> Other Territories includes Norfolk Island, Christmas Island and the Cocos (Keeling) Islands.

<sup>218</sup> Providers can be registered in more than one jurisdiction. Therefore, the National total of active providers is not equal to the respective sums across all states and territories.

## SDA Building Types:

**Existing:** Dwellings built before 1 April 2016 that were used as disability related supported accommodation under a previous State, Territory or Commonwealth scheme. Existing dwellings must substantially comply with the requirements of a new build, and must meet the maximum resident requirement (5 residents or less).

**Legacy:** Existing dwellings that do not meet the maximum resident requirement of 5 residents or less. Over time, the NDIA will stop making SDA payments towards Legacy dwellings.

**New Build:** An SDA dwelling that was built (has a certificate of occupancy dated) after 1 April 2016 and meets all of the requirements under the SDA Rules and NDIS Price Guide.

**New Build (refurbished):** A dwelling that was built before 1 April 2016 but has been significantly refurbished since and now meets all of the requirements for a new build in the SDA Rules and NDIS Price Guide. In order to qualify for as a New Build (refurbished) providers must spend a minimum amount. These minimum amounts are specified per dwelling type in the SDA Price Guide.

The SA3 and SA4 regions have been updated from the 2011 boundaries to 2016 boundaries in March 2023. The changes to the SA boundaries can be found on the Australian Bureau of Statistics website.

SDA in-kind arrangements for Tasmania have phased out as at 30 June 2023 in line with the rest of Australia. Reporting on enrolled in-kind dwellings has been removed as States and Territories have transitioned ownership of State-Owned dwellings to private ownership.

<sup>219</sup> SDA pipeline data is based on information collected by the NDIA from SDA providers who are building properties they intend to enrol as SDA at a later date. This data is intended for the purpose of SDA market oversight only. There is no guarantee from the NDIA that all the dwellings listed will be enrolled as SDA or that it will be enrolled as the same building type and design category as what is in the SDA pipeline data. The NDIA decides whether to enrol a dwelling when an SDA provider submits a completed application to enrol, after the dwelling is built. The NDIA won't enrol a dwelling if the provider and the dwelling don't meet all of the requirements for enrolment under the SDA Rules at the time of the decision. This is regardless of any previous assessment, feedback or certification provided by the NDIA or any other party. There may also be under-construction properties which are intended to be enrolled as SDA which are not represented in the data. There may be delays in excluding enrolled SDA dwellings from SDA pipeline data. This may result in SDA pipeline numbers being overstated in a given reporting period. Work is underway to improve accuracy of SDA dwellings reporting.

<sup>220</sup> The number of participants with SDA in use are participants that have SDA funding in their latest plan and evidence of using SDA. Participants who are SDA eligible (SDA funding not yet in use) are either participants that have SDA in their latest plan and don't have evidence of using it, or participants who have been found eligible for SDA through the home and living application process who don't yet have SDA funding in their plan. Evidence of SDA funding in use is estimated based on SDA payments, SDA service bookings and address matching to an enrolled SDA dwelling. Future enhancements to the PACE system will allow for better tracking and an ability to better understand why participants may not be using SDA funding. There are a number of participants who were found eligible through the legacy CRM process that require further investigation.

## Supplement E:

- 1 The number of people who have left the Scheme is people leaving net of people returning to the Scheme.
- 2 There are a further 1,588 active participants aged 65 years or over who are currently in residential aged care.
- 3 The cumulative results are measured as the numbers of active participants in residential aged care at the end of each quarter. The incremental results are the change in cumulative number of active participants in residential aged care each quarter. Quarterly results are reported based on a rolling 3 year period.
- 4 Other includes participants with housing support data that is unavailable.
- 5 Residential aged care exits do not include participants who are deceased or have exited the Scheme.
- 6 Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.
- 7 From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.
- 8 ECA stands for early childhood approach.
- 9 From the September 2024 quarter, the PSG timeframe (Service Agreement) to approve a plan for early childhood approach (ECA) participants after an access decision has been made was altered to 56 days (previously 90 days).
- 10 ECA stands for early childhood approach.
- 11 Note that plans are extended automatically if they have not been reassessed before expiry so participants have continuity of support.
- 12 From the March 2024 quarter, performance is measured from available data on processes and dates. Milestones being built into the new computer system will improve the capture of performance data.

- 15 Initial changes to the Participant Satisfaction Survey were introduced for the December 2023 monthly data collection. Due to the resulting discontinuity, the present quarterly report only includes data from December 2023 onwards.
- 16 Positively is defined as “Yes” for Yes/No questions, and “Mostly” or “Completely” for 5-point scale questions.
- 17 Complaints made by or on behalf of Providers refer to those submitted by registered providers. Complaints made by or on behalf of unregistered providers are not included.
- 18 Percent of all registration requests is calculated as the number of complaints made by registered providers divided by the number of registered providers. The number of registered providers used in the calculation considers the length of time since the providers have submitted a registration request for the Scheme.
- 19 Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.
- 20 It is possible to record multiple related parties as the source of a complaint. In some cases, different complainant types (participants, providers or other parties) are linked to a single complaint. As a result, the sum of participant complaints, provider complaints and other complaints is higher than the total number of complaints.
- 21 Note that 65% of all complainants made only one complaint, 17% made two complaints, and 18% made three or more complaints.
- 22 Complaints made by or on behalf of Providers refer to those submitted by registered providers. Complaints made by or on behalf of unregistered providers are not included.
- 23 It is possible to record multiple related parties as the source of a complaint, and in some cases, both participants and providers or other parties are linked to a single complaint. Where both a participant and a provider are a related party to a single complaint, the case is counted under both categories.
- 24 Complaints made by or on behalf of Providers refer to those submitted by registered providers. Complaints made by or on behalf of unregistered providers are not included.

- 25 Complaints linked to multiple related parties have been treated as one complaint in order to show the total number of unique complaints. This total will not be equal to the sum of participant, provider and other complaints.
- 26 The Tribunal will affirm the decision under review if it finds that the NDIA has made the correct decision, or vary the decision under review if it finds the NDIA's decision should be altered in some way. The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.
- 27 It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceeds the total in each period.
- 28 Data is reported with one month lag; therefore results for last month of the current quarter are not included.
- 29 Supports in dispute data is only available for 2022-23 Q3 onwards.
- 30 Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.
- 31 A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".
- 32 Registration status is determined as at the posting date of payment.
- 33 The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in Supported Independent Living (SIL) in each service district and the length of time participants have been in the Scheme.

Total annualised committed supports for home modifications were \$384.5 million. Of which, \$148.6 million (39%) has been allocated for specialised disability accommodation (SDA) supports, and \$235.9 million (61%) has been allocated for non-SDA supports.
- 40 The utilisation rate for 2024-25 will likely increase due to a lag between when support is provided and when it is paid for.
- 41 The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

## Supplement F:

- 152 Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.
- 153 From the March 2025 quarter, mainstream support data is integrated from both old and new computer systems. Trial participants (participants with initial plans approved prior to 1 July 2016) are not included.
- 154 Initial changes to the Participant Satisfaction Survey were introduced for the December 2023 monthly data collection. Due to the resulting discontinuity, the present quarterly report only includes data from December 2023 onwards.
- 155 Positively is defined as "Yes" for Yes/No questions, and "Mostly" or "Completely" for 5-point scale questions.
- 156 Percentage of the number of active participants is calculated as the number of complaints made by people who have sought access divided by the number of active participants. The number of active participants used in the calculation takes into account the length of time participants have been in the Scheme.
- 157 Note that 60% of all complainants made only one complaint, 21% made two complaints, and 19% made three or more complaints.
- 158 It is possible to record multiple related parties as the source of a complaint, and in some cases, both participants and providers or other parties are linked to a single complaint. Where both a participant and a provider are a related party to a single complaint, the case is counted under both categories.

- 159 The Tribunal will affirm the decision under review if it finds that the NDIA has made the correct decision, or vary the decision under review if it finds the NDIA's decision should be altered in some way. The Tribunal will set aside the decision under review if it finds that the NDIA has made a wholly or partially incorrect decision. In this case they can replace the NDIA's decision, or send the case back to the NDIA with considerations to be taken when making a new decision.
- 160 It is possible to record multiple supports in one ART, hence the sum of the individual type of supports exceeds the total in each period.
- 161 Data is reported with one month lag; therefore results for last month of the current quarter are not included.
- 162 Supports in dispute data is only available for 2022-23 Q3 onwards.
- 163 Registration status is determined as at the posting date of payment. If a provider's registration status changes during the quarter, they will be included in both the registered and unregistered provider count. The total provider count only considers unique providers; therefore, it will be lower than the sum of registered and unregistered providers.
- 164 A small number of providers have a missing Australian Business Number (ABN). Payments associated with these providers are not shown separately but are included in the "All registration statuses".
- 165 Registration status is determined as at the posting date of payment.
- 166 Total payments for home modifications were \$2.8 million. Of which, \$2.8 million (99.4%) has been paid for specialised disability accommodation (SDA) supports, and \$0.02 million (0.6%) has been paid for non-SDA supports. Total annualised committed supports for home modifications were \$5.5 million. Of which, \$5.4 million (97%) has been allocated for specialised disability accommodation (SDA) supports, and \$0.2 million (3%) has been allocated for non-SDA supports.
- 167 Total payments for home modifications were \$4.7 million. Of which, \$0.8 million (17.1%) has been paid for specialised disability accommodation (SDA) supports, and \$3.9 million (82.9%) has been paid for non-SDA supports. Total annualised committed supports for home modifications were \$8.4 million. Of which, \$1.1 million (13%) has been allocated for specialised disability accommodation (SDA) supports, and \$7.3 million (87%) has been allocated for non-SDA supports.
- 168 The utilisation rate for 2024-25 will likely increase due to a lag between when support is provided and when it is paid for.
- 169 The Annual Pricing Review saw price limit increases from 1 July 2024. Unspent portions of plan budgets were increased in line with new price limit to maintain the purchasing power of remaining plans. Due to this, there has been a one-off increase in intraplan and total inflation during the month of July 2024.

## Supplement L:

- 170 The number of people who have left the Scheme is people leaving net of people returning to the Scheme.
- 171 There are a further 19 active participants aged 65 years or over who are currently in residential aged care.
- 172 Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

## Supplement M:

- 190 The number of people who have left the Scheme is people leaving net of people returning to the Scheme.
- 191 There are no people younger than 65 living in residential aged care in the Northern Territory

- 192 The cumulative results are measured as the numbers of active participants in residential aged care at the end of each quarter. The incremental results are the change in cumulative number of active participants in residential aged care each quarter. Quarterly results are reported based on a rolling 3 year period.
- 193 Participation rate refers to the proportion of the general population that are NDIS participants. A small proportion of participants have a gender of 'Other'. The participation rates for this group are included within the total rates.

## Supplement P:

- 211 Service districts are defined by the current address the participant resides in. 'Other' includes participants where the service district information is missing.
- 212 Other Territories includes Norfolk Island, Christmas Island and the Cocos (Keeling) Islands.
- 213 State/Territory is defined by the current residing address of the participant.
- 214 Other Territories includes Norfolk Island, Christmas Island and the Cocos (Keeling) Islands.

- 215 Annualised supports committed to SDA in current plans refer to annualised supports committed for active participants who have SDA in their plans at 30 June 2025.
- 216 Active providers of SDA supports in this table refer to any provider that has received a payment for providing SDA supports to NDIA-managed participants residing in the given jurisdiction.
- 217 Other Territories includes Norfolk Island, Christmas Island and the Cocos (Keeling) Islands.
- 218 Providers can be registered in more than one jurisdiction. Therefore, the National total of active providers is not equal to the respective sums across all states and territories.
- 219 SDA pipeline data is based on information collected by the NDIA from SDA providers who are building properties they intend to enrol as SDA at a later date. This data is intended for the purpose of SDA market oversight only. There is no guarantee from the NDIA that all the dwellings listed will be enrolled as SDA or that it will be enrolled as the same building type and design category as what is in the SDA pipeline data. The NDIA decides whether to enrol a dwelling when an SDA provider submits a completed application to enrol, after the dwelling is built. The NDIA won't enrol a dwelling if the provider and the dwelling don't meet all of the requirements for enrolment under the SDA Rules at the time of the decision. This is regardless of any previous assessment, feedback or certification provided by the NDIA or any other party. There may also be under-construction properties which are intended to be enrolled as SDA which are not represented in the data. There may be delays in excluding enrolled SDA dwellings from SDA pipeline data. This may result in SDA pipeline numbers being overstated in a given reporting period. Work is underway to improve accuracy of SDA dwellings reporting.
- 220 The number of participants with SDA in use are participants that have SDA funding in their latest plan and evidence of using SDA. Participants who are SDA eligible (SDA funding not yet in use) are either participants that have SDA in their latest plan and don't have evidence of using it, or participants who have been found eligible for SDA through the home and living application process who don't yet have SDA funding in their plan. Evidence of SDA funding in use is estimated based on SDA payments, SDA service bookings and address matching to an enrolled SDA dwelling. Future enhancements to the PACE system will allow for better tracking and an ability to better understand why participants may not be using SDA funding. There are a number of participants who were found eligible through the legacy CRM process that require further investigation.
