'NDIS Participant Outcomes 30 June 2019' is the second annual report on outcomes for NDIS participants. The report analyses the baseline results for people who entered the Scheme in 2016-17, 2017-18, and 2018-19, the one and two year longitudinal change in outcomes for people who entered in 2016-17 and the one year longitudinal change in outcomes for people who entered in 2017-18.

Leveraging research conducted by the NDIS Independent Advisory Council (IAC), the outcomes framework takes a lifespan approach to the measurement of outcomes.

There are four different versions of the outcomes framework questionnaires, corresponding to four participant age groups.

The report is organised with separate chapters for each age cohort, drawing together analyses from all data sources.

High level summaries of results for all questions are included in separate volumes of Appendices. Data shown in the Appendices are included as csv files in zipped format.

On this page you can download the full report or download individual chapters and appendices.

Note: the information on these pages is subject to a Data disclaimer.
