Participant group reports are collection of publicly shared in-depth analyses on selected topics conducted at a point in time.

The reports review how different participant groups are experiencing the Scheme, along with providing accompanying data download for further insights.

Topics that are included in this collection of past analyses are

- Disability type
- Gender
- Background and demographics
- Specific conditions (i.e., neurodegenerative, spinal cord injury)
- Age (i.e., young people)
- First Nations peoples (previously Aboriginal and Torres Strait Islander peoples)
