The National Disability Insurance Agency (NDIA) regularly shares reports and data aimed at improving knowledge and understanding of how people with disabilities are experiencing the Scheme.

The purpose of this dashboard is to understand the profile and experience of participants with different genders.

Using Scheme data, the report summarises available information on:

- Participants – the profile of participants with different genders, including characteristics such as primary disability, age, background and demographics
- Payments – total and average payments for supports to participants with different genders according to age and SIL (Supported Independent Living) arrangements
- Participant outcomes – various measures of outcomes achieved by male and female participants and their families and carers, including those recorded at Scheme entry and over time through longitudinal survey responses
- Participant experience – various measures of the Scheme as experienced by participants with different genders, including the number of 'access met' decisions, participant satisfaction and complaints
- Providers – number of providers supporting participants with different genders and payments to providers by type of plan management.
